Emipro Technologies Pvt. Ltd.

Extension Installation Guide

Magento 2

We recommend you to test the installation process on a demo environment first before deploying to your production environment.

Installation using composer:

Perform the below commands in the terminal to install the extension in your site:

```
# php bin/magento maintenance:enable
# php bin/magento cache:flush
# php bin/magento cache:disable
# composer require emipro/virtualtry
# php bin/magento setup:upgrade
# php bin/magento setup:static-content:deploy [languages] (eg: en_US
de_AT de_DE fi_FI sv_SE)
# php bin/magento cache:enable
# php bin/magento maintenance:disable
```

Installation using FTP:

Download the Latest Version

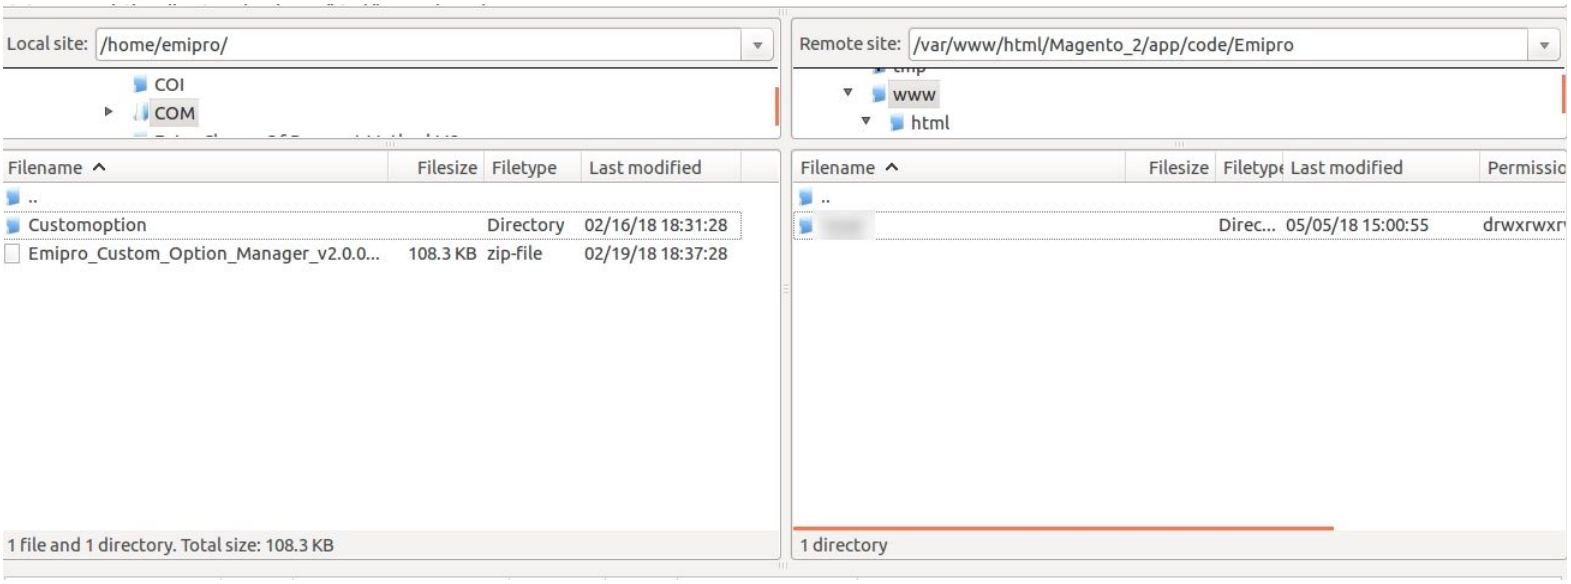
- ➢ Login into your account
- ➢ Download extension's latest version file

Pre-Installation Steps

- ➢ Backup your Magento web directory and database
- ➢ Enable the maintenance mode by this command:
  php bin/magento maintenance:enable
- ➢ Flush the cache and then disable it by performing these commands:
  php bin/magento cache:flush
  php bin/magento cache:disable

Upload Extension

- ➢ Extract downloaded zip file. It will extract a main folder.
- ➢ Go to the *'code'* folder inside *'app'* folder in your Magento installation directory and create a folder named *'Emipro'*. So now the path would be *app/code/Emipro*.
- ➢ Now, place the extracted folder inside the *'Emipro'* folder you have created. For ex., as per the below screenshot, place the *'Virtualtry'* folder inside the *'Emipro'* folder. So now the extension path would be *app/code/Emipro/Virtualtry*.



Post-Installation Steps

- Upgrade your Magento from SSH, run the command in Magento2 root directory:
  php bin/magento setup:upgrade
- Deployment of static content: run this command in Magento2 root directory
  php bin/magento setup:static-content:deploy [languages] (eg: en_US de_AT de_DE fi_FI sv_SE)
- Now enable the cache as it was before:
  php bin/magento cache:enable
- Disable the maintenance mode:
  php bin/magento maintenance:disable

Now Magento extension will work as per documentation. Enjoy it !!!
