1. Installation Instructions

Uploading the extension

1. Upload via Composer

1. Log into the Magento server (or switch to) as a user who has permissions to write to the Magento file system.
2. Create a folder anywhere on your server (preferably not in the Magento install dir). When done, upload all extension zip packages in there.
3. To use the folder created above as a packaging repository, add the following piece of code to the composer.json file:

```
{
"repositories": [
    {
        "type": "artifact",
        "url": "path/to/directory/with/extension/zip/"
    }
]
}
```

4. Install the extension with Composer

1. Installation Instructions

2. Upload by copying code

1. Log into the Magento server (or switch to) as a user, who has permissions to write to the Magento file system.
2. Download the "Ready to paste" package from your customer's area, unzip it and upload the 'app' folder to your Magento install dir

NOTE:

1. Before installing this extension we recommend you to keep backup your website code and database.
2. Please use the Merge upload mode. Do not replace the whole folders, but merge them.

1. Installation Instructions

Enable the module

1. Log into the Magento server (or switch to) as a user, who has permissions to write to the Magento file system.
2. Go to your Magento install dir:

   cd <your Magento install dir>

3. Enable the module:

   Open the Terminal/command Prompt from your Magento root and run the below command to enable the module.

4. Run the following commands :

php bin/magento module:enable Sigma_Newslettersubscribe

php bin/magento setup:upgrade

php bin/magento cache:flush

php bin/magento setup:static-content:deploy

© Sigma Infosolutions. All rights reserved.

To Uninstall the Extensions:

1. Run the following commands:

```
php bin/magento module:disable Sigma_Newslettersubscribe
php bin/magento setup:upgrade
php bin/magento cache:clean
php bin/magento cache:flush
php bin/magento indexer:reindex
```

That is it.

Now you can start using the extension.
