COURIERSPLEASE

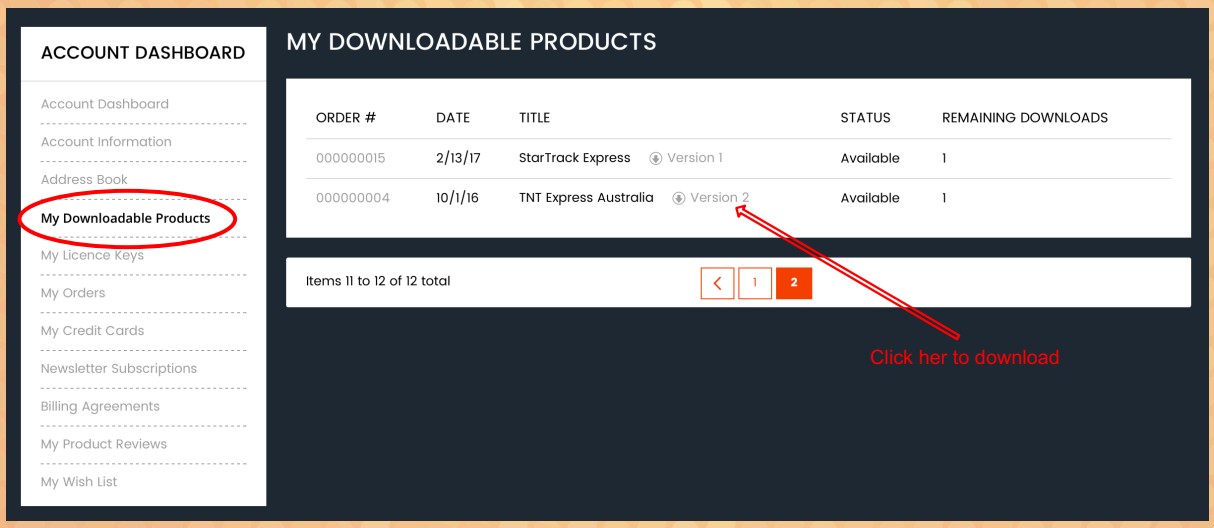
Installation Guide

Download the extension

After completing the order, the extension will be available for download from your account on MageXtensions.

To download the extension:

- Login to your account on MageXtensions: https://magextensions.com.au/customer/account/login/
- Click on 'My Downloadable Products' from the left menu
- Click on the 'Start Download' link for the chosen extension



- Save the ZIP file on your computer
- Extract the files

Upload to your site

Please make sure that you use the Binary Transfer Type when uploading files to your server so that folders are merged instead of being overwritten.

Using your preferred FTP client, upload the extracted files to the following folder of your Magento 2 installation:

`/app/code`

Installation Service

We can do the installation of the extension for you at a nominal fee of $50. Please contact us at sales@magextensions.com.au.

Please provide the following information in your email:

- Site's URL
- Admin URL
- Admin username and password
- FTP host, port, username and password

We will also configure and test the extension on your website for FREE. Please provide the API key for your Fastway Couriers account.

Support

If you have any issue with the extension, please contact us at support@magextensions.com.au.

Please provide the following information so that we can check the issue:

- Site's URL
- Admin URL
- Admin username and password
- FTP host, port, username and password
