

CookieConsent.io

Magento 2 Integration manual

CookieConsent.io is a cookie and online tracking consent solution that complies with the consent and information requirements of the EU ePrivacy Directive 2009/136/EC and the General Data Protection Regulation (GDPR).

CookieConsent.io automatically scans all cookies and trackers on your website. These cookies and trackers come into place when a website visitor has given permission for this. Evert month the list of cookies and trackers is automatically updated on your website. This ensures you that your website is always complies with the GDPR regulations.

This integration allows you to implement the following CookieConsent.io features in the Magento 2 webshop:

Discovered cookies table

Show a list of the the discover cookies by the CookieConsent.io service. You can place this table on the privacy page so visitors know what cookies are set when they give consent.

Legal text

You can show the default CookieConsent.io legal text on the privacy page.

Cookie settings button or link

Show a cookie settings button or link so the visitor can change his cookie preferences by pushing this button.

Below an example of the cookie table and settings button. This integration provides a way to easy implement these features on the Magento 2 webshop.
