

Installation Guide Actindo Core1 Connect

for Magento / Adobe Commerce

Actindo Core1
Digital Operations Platform

Adobe
Exchange Partner
INNOVATE

This is a step by step guide on how to use the "Actindo Core1 Connector" extension. In order to follow this guide you only need your Actindo account URL.

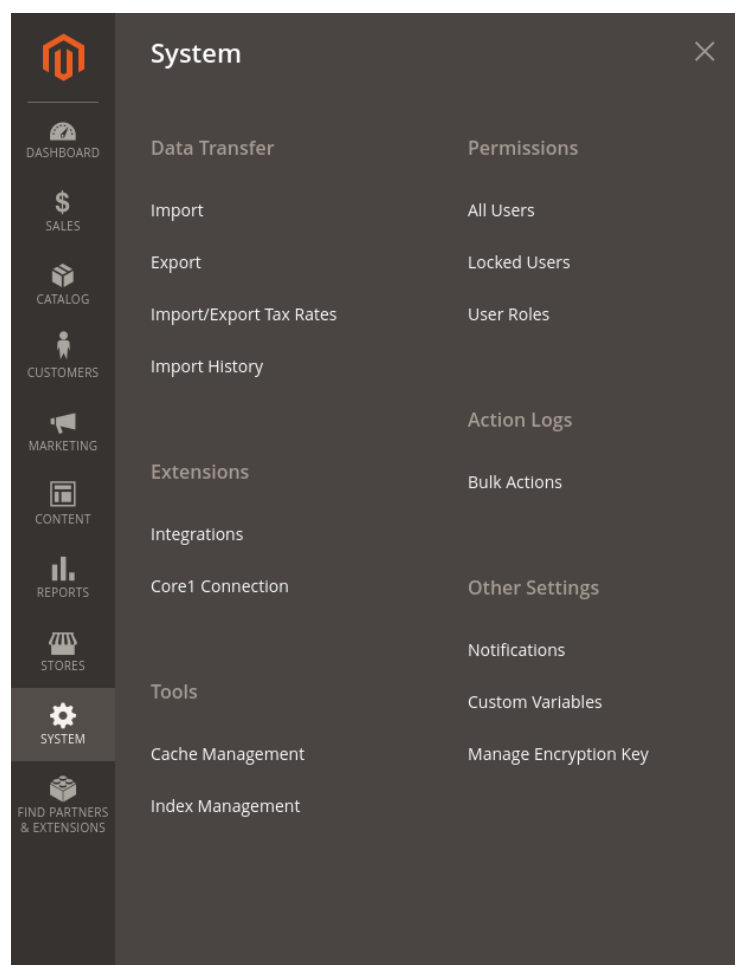

URL Scheme: <https://.actindo.com>

1. Step:

Open your Magento Account admin area.

2. Step:

In the Admin Menu select "System" and then "Core1 Connection" in the "Extension" section.

3. Step:

You will be link to the setup page. On this page you can find a window called „Magento Installation“. Here you need your Actindo account URL. Before entering please make sure that you removed the "https://" and ".actindo.com" from the URL as this is auto completed. Now just hit the "START SETUP" button.

4. Step: This is all you have to do. The extension now creates the Actindo Channels connection and all required data (e.g. the integration in your Magento store) automatically.

Core1 Connection 🔍 🔔 👤 actindo ▾

✔ Verbindung zu https://... besteht.

Shop-Version: 2.4.3
Plugin-Version: 1.0.0

Letzte Änderung: a few seconds ago ↻

- ✔ Komblierter Status
- ✔ Bestellimport
- ✔ Bestellexport zu CMS
- ✔ Bestellexport zum Channel (z.B. Shop)
- ✔ Angebotsupload
