
REDIRECT AFTER REGISTRATION LOGIN & LOGOUT

User Guide
Version 1.0

How to Configure the Extension:

At the backend, go to **Addify EXTENSIONS > Addify Custom Redirect > Configurations**. Here you will have access to the following configurations:

General Settings:

Enable Extension:

Select Yes or No to enable or disable extension respectively. If the extension is disabled the following redirection rules will not work. Make sure you enable the extension to start using it.

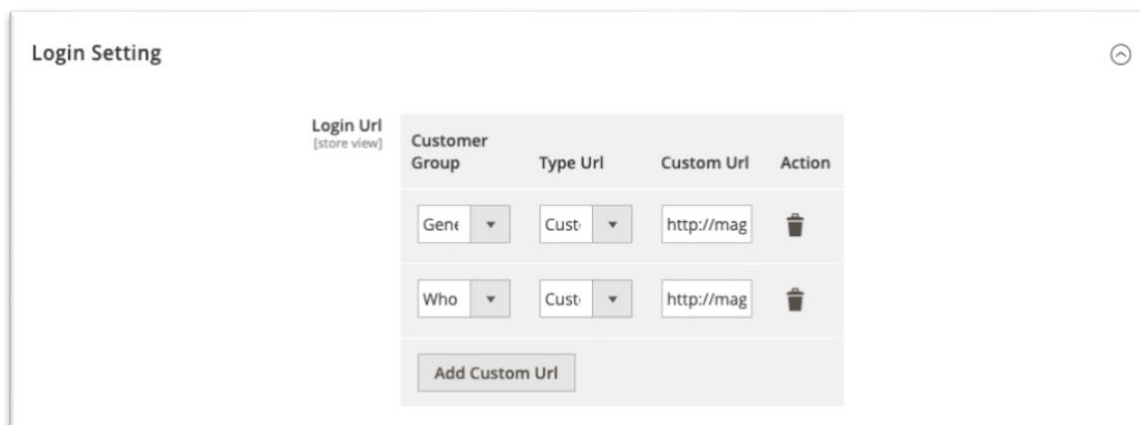

The image shows a configuration field labeled "Enabled [store view]" with a dropdown menu currently set to "Yes".

1. Login Setting:

Redirect Users after login based on the customer groups. You can add multiple rules to redirect each customer group to a different URL. Following are the redirection types,

1. **Default Url:** No redirection is added the customer is redirected to default pages.
2. **Home Page:** Sends users to homepage.
3. **Previous Url:** Sends users to back to same URL form where they came.
4. **Custom Url:** You can add any internal or external link to redirect your customers.

The image shows the "Login Setting" configuration panel. It features a table with columns for "Customer Group", "Type Url", "Custom Url", and "Action". There are two rows of rules, each with a trash icon in the "Action" column. Below the table is an "Add Custom Url" button.

Customer Group	Type Url	Custom Url	Action
Genr	Cust	http://mag	
Who	Cust	http://mag	

Below the table is a button labeled "Add Custom Url".

2. Logout Setting:

Redirect Users after Logout based on the customer groups. You can add multiple rules to redirect each customer group to a different URL. Following are the redirection types,

1. **Default Url:** No redirection is added the customer is redirected to default pages.
2. **Home Page:** Sends users to homepage.
3. **Previous Url:** Sends users to back to same URL form where they came.
4. **Custom Url:** You can add any internal or external link to redirect your customers.

Logout Setting ⌵

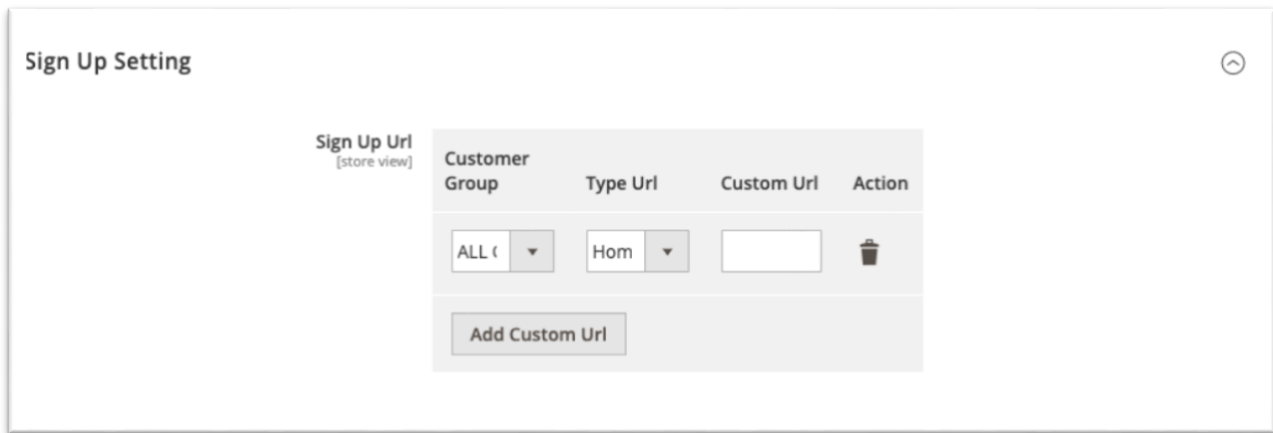

Logout Url
[store view]

Customer Group	Type Url	Custom Url	Action
ALL (▾)	Cust ▾	http://mag	
Who ▾	Hom ▾	<input type="text"/>	

3. Sign Up Setting:
