* This plugin is **only** for Magento 2.x CMS
Make sure an ecommerce platform is installed and configured

1. Installation

1.1. Marketplace

Visit Magento Marketplace at <https://marketplace.magento.com/>

You can find our plugin by keywords "admitad". Do not forget to filter the results by the store version Magento 2.x. The alternative way is to use a direct link to the plugin page

<https://marketplace.magento.com/admitad-track.html>

Extensions for Magento

The screenshot shows the Magento Marketplace search interface. The search bar contains the keyword "admitad". On the left, there are filter sections: "Selected Filters" with a "Clear all" link, "Categories" (Extensions: 1, Marketing: 1), "Edition" (Open Source (CE): 1), "Versions" (2.3: 1), and "Partner Type". The search results show 1 result, sorted by Relevance. The result is "Admitad Admitad Tracking" with a price of \$0.00. The "Results per page" dropdown is set to 36, and there is 1 page of results.

Go to the plugin page and add the plugin to the cart.

The screenshot shows the product page for "Admitad Tracking" by Admitad. The product has a rating of 0.0 (0) stars. The main image is a large purple circle with the Admitad logo. To the right, there are dropdown menus for "Edition" (Open Source (CE)) and "Your store version" (2.3 (Open Source (CE))). Below these is a warning box: "This is an Integration with a Third Party Service. Other charges and fees may be required to use this extension on your Store". The price is listed as "TOTAL: \$0.00". There is an orange "Add to Cart" button and a "Contact Vendor" button. At the bottom, there are navigation arrows and a "CONTENTS" section with a link to "Overview".

After you place and complete your order, you should create access keys to install the plugin if you do not have them yet. To create your public and private key, go to https://marketplace.magento.com/customer/accessKeys/index/activeTab/tab-magento_2

My Access Keys

Magento 2 Magento 1

Create A New Access Key

These keys can be used for authorized downloads of the Magento 2 platform, instruction document for installing <http://devdocs.magento.com/guides/v2.0/extension>

Log in to your admin area and go to the “System - Web Setup Wizard” menu, then click the “Extension Manager” button.

Ready to Install

Install 3 extensions 20 per page 1 of 1

| <input type="checkbox"/> | Extension Name ↓ | Type | Vendor ↓ | Latest version | Action |
|-------------------------------------|------------------|--------|----------|-----------------|-------------------------|
| <input checked="" type="checkbox"/> | admitad/track | Module | Admitad | Version 1.0.0 ↓ | Install |

Follow the instructions of the setup wizard.

Step 1: Readiness Check

Let's check your environment for the correct PHP version, PHP extensions, file permissions and compatibility.

[Start Readiness Check](#)

In case of any problems with the installation process you can install our plugin manually.

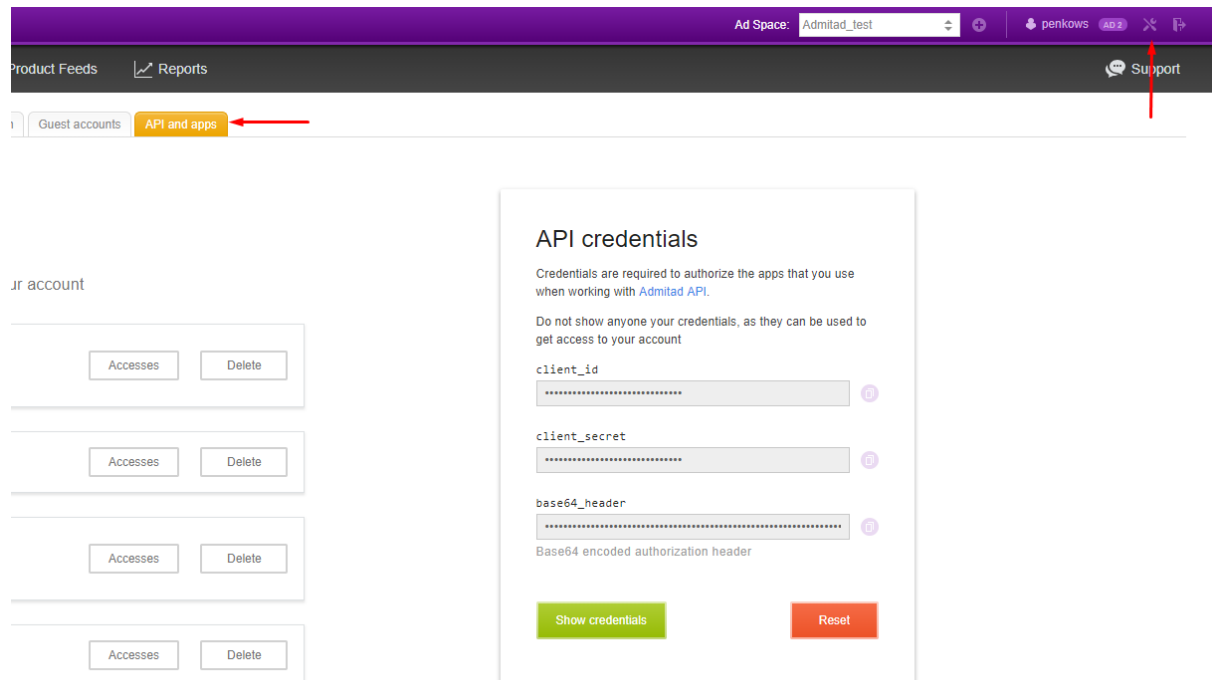

1.2. Manual

Follow the guide <https://devdocs.magento.com/extensions/install/>

2. Authorization

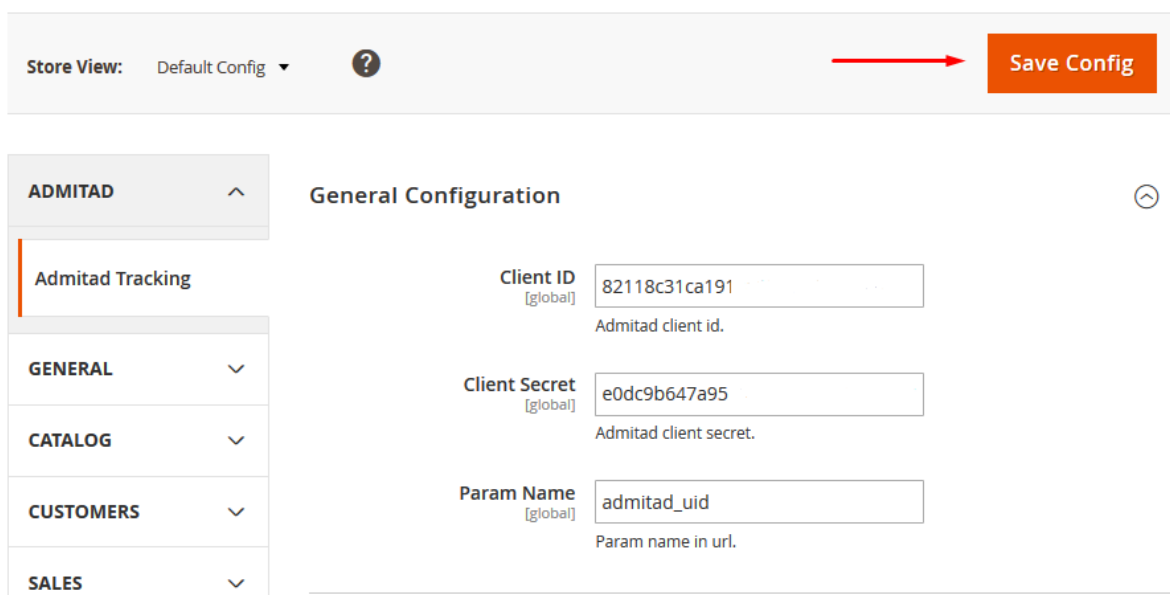

NB: This plugin is [for Admitad advertisers only](#)

If you already know the ID and secret key for your store, you can proceed to the next step. If not yet, visit the settings page of your personal Admitad account, and get your key at "API and apps" tab.

The screenshot shows the Admitad dashboard interface. At the top, there is a navigation bar with 'Product Feeds' and 'Reports' tabs. Below this, there are tabs for 'Guest accounts' and 'API and apps', with a red arrow pointing to the 'API and apps' tab. The main content area is divided into two sections. On the left, there is a section for 'My account' with four rows, each containing 'Accesses' and 'Delete' buttons. On the right, there is a 'API credentials' form. The form includes a warning: 'Credentials are required to authorize the apps that you use when working with Admitad API. Do not show anyone your credentials, as they can be used to get access to your account.' Below the warning are three input fields: 'client_id', 'client_secret', and 'base64_header'. Each field has a 'Show' button to its right. At the bottom of the form are two buttons: 'Show credentials' (green) and 'Reset' (red).

Go to the "Stores - Configuration" menu, find Admitad Tracking configuration settings. Then paste the ClientID and the Client Secret key and click the "Save Config" button.

The screenshot shows the Admitad configuration settings page. At the top, there is a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. Below this, there is a sidebar with a menu for 'ADMITAD' containing 'Admitad Tracking', 'GENERAL', 'CATALOG', 'CUSTOMERS', and 'SALES'. The main content area is titled 'General Configuration' and contains three configuration fields: 'Client ID' (value: 82118c31ca191), 'Client Secret' (value: e0dc9b647a95), and 'Param Name' (value: admitad_uid). Each field has a description below it: 'Admitad client id.', 'Admitad client secret.', and 'Param name in url.' respectively.

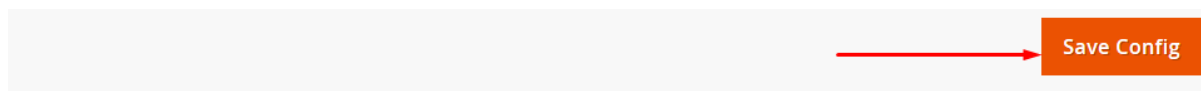

You can leave the default param name, `admitad_uid`, if you do not want to change the name of a GET-parameter that you will receive from Admitad.

3. Configuration of actions and rates

Go to the “Stores - Configuration” menu. Open a drop-down panel below the “General Configuration” section.

Select the “Sale” option in the drop-down list for the campaign active actions.

Paid order ⌵

Action [global] ⌵

Category 1: [global]

- Default Category
- Gear
- Gear -> Bags
- Gear -> Fitness Equipment
- Gear -> Watches
- Collections -> New Luma Yoga Collection
- Men
- Men -> Tops
- Men -> Bottoms
- Men -> Tops -> Jackets

Select allowed categories for Category 1.

Category 2: [global]

- Default Category
- Gear
- Gear -> Bags
- Gear -> Fitness Equipment
- Gear -> Watches
- Collections -> New Luma Yoga Collection
- Men
- Men -> Tops
- Men -> Bottoms

After that, distribute¹ the categories of goods in accordance with the action rates in your Admitad account.

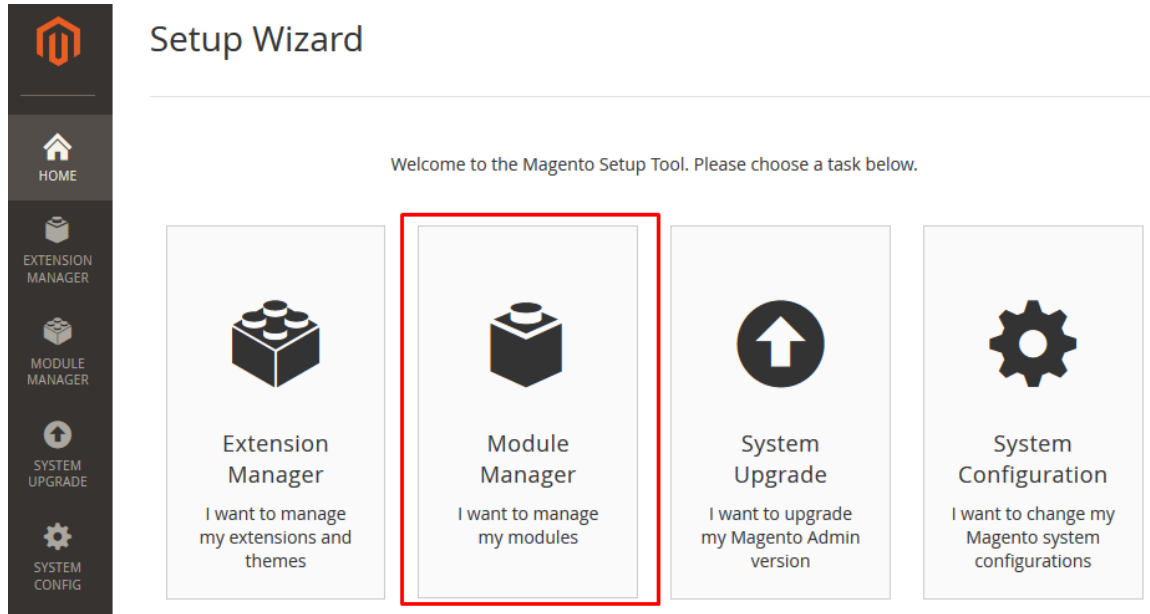

Click the "Save Config" button.

¹ Multiple selection can be done via Ctrl + click or Shift + click. All categories - using Ctrl + A

4. Uninstallation

4.1. Marketplace

Go to the “System - Web Setup Wizard” menu, then click the “Module Manager” button.

Find the “admitad/track” module and click “Disable”.

Available modules 138 modules 20 per page < 1 of 7 >

| Component Name | Module Name | Version | Vendor | Action |
|--|-----------------------|---------|-----------|-------------------|
| admitad/track | Admitad_Track | 1.0.0 | Admitad | Select Disable |
| dotmailer/dotmailer-magento2-extension | Dotdigitalgroup_Email | 2.3.8 | Dotmailer | |

Follow the instructions of the setup wizard.

In case of any problems with the uninstallation process you can uninstall a plugin manually.

4.2. Manual

Follow the guide <https://devdocs.magento.com/extensions/install/>

Thank you for reading this manual.
You can leave your feedback on the plugin page
