Add Free Product to Cart

To install the extension follow the instructions below:

1) Backup your web directory and store database
- Get the Add Free Product to Cart name and version in your Marketplace account:

Login to Magento Marketplace with the username and password you used to purchase the Add Free Product to Cart extension;

- Enter the My Purchases section: **Your name (top-right corner of the page) > My Profile > My Purchases**;
- Find Add Free Product to Cart and click **Technical details**.

2) Copy the provided component name and version in order to update your composer.json file.
Note: *We advise you to use the latest version of our extension.*

3) Update your composer.json file:
- Open the root Magento directory on your server and send Composer the following command:

```
Composer require <Add_Free_Product_to_Cart>:<version>
```

4) At the Composer request, enter your Magento marketplace credentials (public key - username, private key - password).

5) Make sure that Composer finished the installation without errors.

6) Flush store cache, log out and log in the backend again.
The Add Free Product to Cart extension is now installed and ready for work.

Set up cron

If you have already configured cron jobs for your Magento installation then you can skip this step. Read the following instructions on setting cron job for your Magento store: Magento user guide.

Generally, it would be enough to run in SSH console of your server:

```
crontab -e
```

And insert the following line:

```
*/3  *  *  *  *  php  -c  <ini-file-path>  <your  Magento  install
dir>/bin/magento cron:run

*/3  *  *  *  *  php  -c  <ini-file-path>  <your  Magento  install
dir>/update/cron.php

*/3  *  *  *  *  php  -c  <ini-file-path>  <your  Magento  install
dir>/bin/magento setup:cron:run
```

Remember to confirm the Save request when exiting the installation.
