

Customer Group Catalog Permissions

Installation manual

To install the extension follow the instructions below:

- 1) Backup your web directory and store database
 - Get the Customer Group Catalog Permissions name and version in your Marketplace account:
Login to Magento Marketplace with the username and password you used to purchase the Customer Group Catalog Permissions extension;
 - Enter the My Purchases section: **Your name (top-right corner of the page) > My Profile > My Purchases;**
 - Find Customer Group Catalog Permissions and click **Technical details.**
- 2) Copy the provided component name and version in order to update your composer.json file.

Note: We advise you to use the latest version of our extension.

- 3) Update your composer.json file:
 - Open the root Magento directory on your server and send Composer the following command:

```
Composer require <Customer_Goup_Catalog_Permissions>:<version>
```

- 4) At the Composer request, enter your Magento marketplace credentials (public key - username, private key - password).
- 5) Make sure that Composer finished the installation without errors.
- 6) Flush store cache, log out and log in the backend again.

The Customer Group Catalog Permissions extension is now installed and ready for work.

Use Magento [Dev Docs](#) for more details.
