

# Free Shipping Bar

## Installation manual

To install the extension follow the instructions below:

- 1) Backup your web directory and store database
  - Get the Free Shipping Bar name and version in your Marketplace account:  
Login to Magento Marketplace with the username and password you used to purchase the Free Shipping Bar extension;
  - Enter the My Purchases section: **Your name (top-right corner of the page) > My Profile > My Purchases;**
  - Find Free Shipping Bar and click **Technical details.**
- 2) Copy the provided component name and version in order to update your composer.json file.

**Note:** We advise you to use the latest version of our extension.

- 3) Update your composer.json file:
  - Open the root Magento directory on your server and send Composer the following command:

```
Composer require <free_shipping_bar>:<version>
```

- 4) At the Composer request, enter your Magento marketplace credentials (public key - username, private key - password).
- 5) Make sure that Composer finished the installation without errors.
- 6) Flush store cache, log out and log in the backend again.

The Free Shipping Bar extension is now installed and ready for work.

Use Magento [Dev Docs](#) for more details.

- 7) It is essential to install the GeoIP2 library to use the extension (as of version 1.2.0).

To install, run the following commands:

1. curl -sS <https://getcomposer.org/installer> | php
  2. php composer.phar require geoip2/geoip2:~2.0.
- Update GeoIp Settings in the module configurations.

Click [here](#) to download the library.
