# Ajax Shopping Cart for Magento 2

Magento 2 *AJAX add to cart* extension provides a comfortable shopping experience. Customers can easily select configurable options and edit the items in the pop up without wasting time on page reloads.

- User-friendly shopping process;
- Stylish Magento 2 AJAX cart pop up;
- Equip Magento 2 stores with AJAX confirmation windows of 2 different types;
- Support of custom options and configurable products;
- Additional way to gently promote related items.

---

## General Settings

To configure the module, go to **Admin Panel** → **Stores** → **Configuration** → **Amasty Extensions** → **Ajax Shopping Cart**

### General

Enable Ajax Shopping Cart    
[store view]

Dialog Close Delay (in seconds)   
[store view]

If set to 0, confirmation dialog will not hide automatically.

Use Ajax Shopping Cart on Product View Pages    
[store view]

Continue Button Action on Product View Pages    
[store view]

Custom Options Display Mode    
[store view]

Enable or disable the extension in **Enable Ajax Shopping Cart**.

**Dialog Close Delay (in seconds):** In this field, you can set a timer for *Continue* button. After a set time expires, a dialog box disappears.

**Use Ajax Shopping Cart on Product View Pages:** You can choose whether to use AJAX Shopping Cart on product view page or not.

**Continue Button Action on Product View Pages:** Select whether *Continue* button on product view page should link to the category page or remain on the product page.

**Custom Options Display Mode:** Customers can select configurable products and custom options right on the category page. If you use many custom options and would like to display only required ones on category pages, please choose *Only Required Options*. Otherwise, you can select *All Custom Options*.

## Display Settings

**Enable flying image effect:** With this setting, you can activate and deactivate nice looking visual effect.

You can get an idea of how the effect works [here](#).

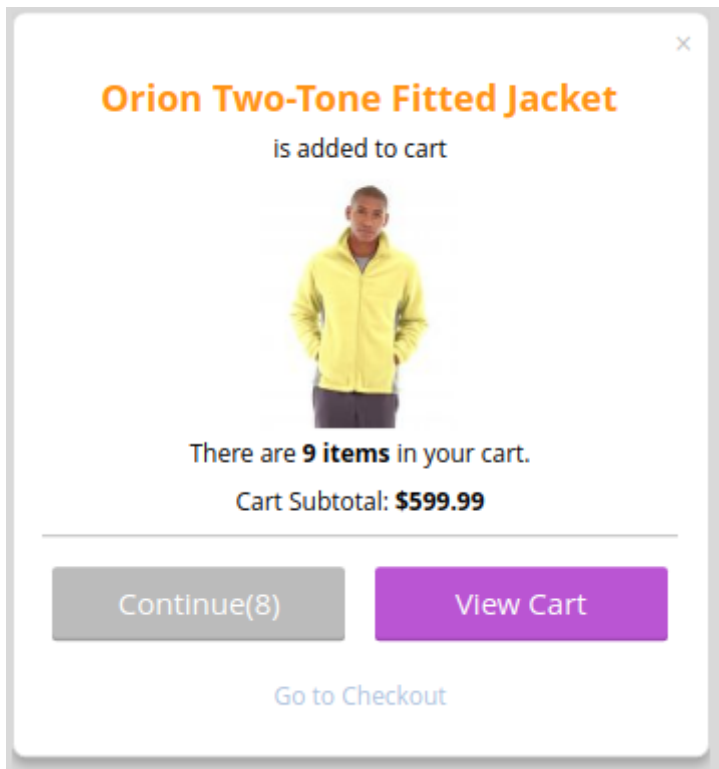

**Dialog Box align:** Choose, where to locate the cart dialog box - *Center, Top, Top left, Top right, Left, Right*.

### Display Settings

<b>Enable flying image effect</b> <small>[store view]</small>	Yes
	When set to 'Yes', the image of the product added to cart 'flies' to the 'Top Cart' block in the top menu. Looks nice.
<b>Dialog Box Align</b> <small>[store view]</small>	Center
<b>Display Product Image in Dialog</b> <small>[store view]</small>	Yes
<b>Image to Show for Configurable Products</b> <small>[store view]</small>	Child Simple Product Image

It is possible to select what product information you would like to display in the cart dialog window.

See how a dialog box looks like

**Display Product Image in Dialog:** Enable or disable a product image in a dialog box.

**Image to Show for Configurable Products:** Select whether to display *Parent Configurable Product Image* or *Child Simple Product Image*.

<b>Display Total Count of Products in Cart</b> <small>[store view]</small>	<input type="text" value="Yes"/>	▼
<b>Display Total Amount in Cart</b> <small>[store view]</small>	<input type="text" value="Yes"/>	▼
<b>Display 'Go to Checkout' Button</b> <small>[store view]</small>	<input type="text" value="Yes"/>	▼
<b>Display the Product Qty Added to the Cart on the Product Listing</b> <small>[store view]</small>	<input type="text" value="Yes"/>	▼

**Display Total Count of Products in Cart:** You can show the number of products in cart.

**Display Total Amount in Cart:** Display a current cart subtotal to your customers.

**Display Go to Checkout Button:** To make it easier and to hasten a shopping process, display a button, that leads to checkout.

**Display the Product Qty Added to the Cart on the Product Listing:** Enable the option to highlight the products that have already been added to the shopping cart. With mouse hover over the

product, the number of items added to the cart appears.

## Selling Options

To display **related products** or **cross-sells** in the cart dialog box, select the necessary option.

See how it looks on the [frontend](#).

### Selling Options

Choose the Product Block Type to Display in the Confirmation Dialog [store view]

Related	▲
None	
Related	
Cross-sell	

## Visual Options

Customize visual style of a dialog box.

### Visual Options

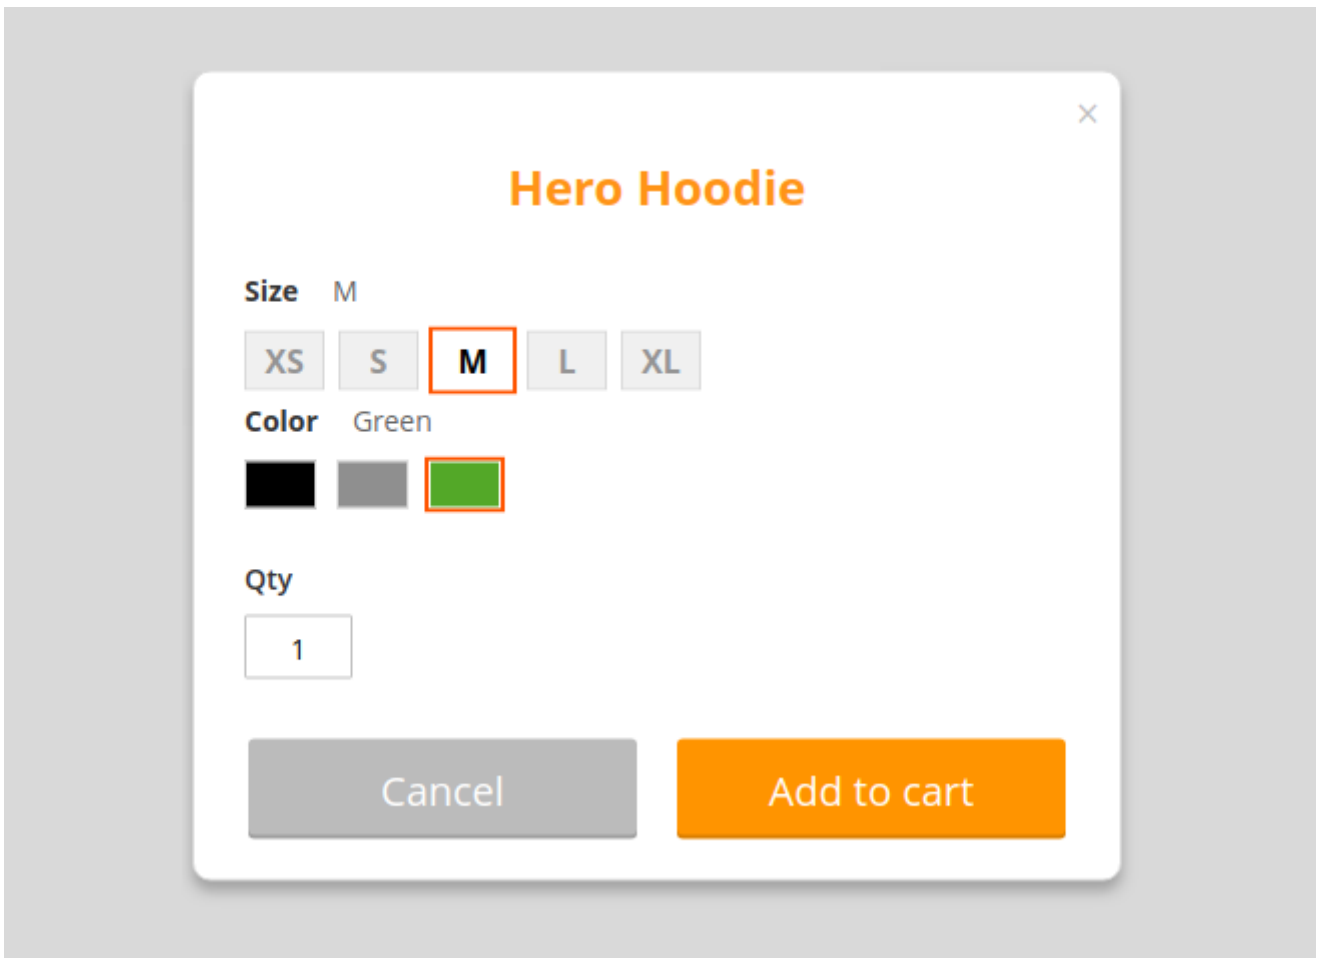

Background Color [store view]	DBDBDB
Header Background Color [store view]	BFBFBF
Text Color [store view]	707070
Button Text Color [store view]	FFFFFF
Left Button Color [store view]	7FC7EB
Right Button Color [store view]	9A9A9A

## Frontend

This is how **AJAX shopping cart** window looks on the frontend.

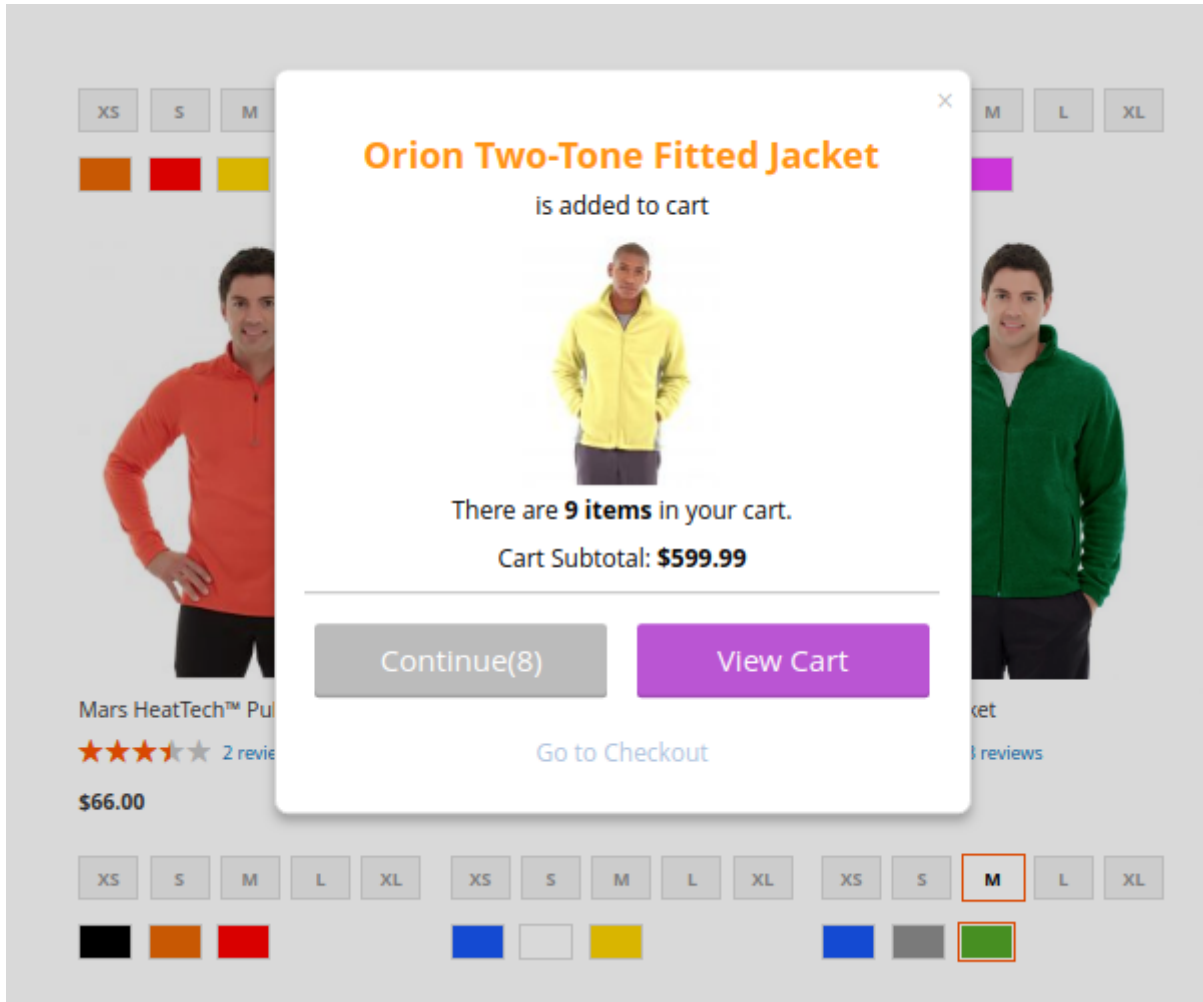

### Catalog Page

When there are no options available to select on the catalog page itself (e.g. Home Page), customers can specify the product options (**color, size, quantity**) directly in the confirmation dialog (pop-up) without going to the product details page.

### Product Page

When adding products to cart, customers will see the item they are adding to cart and also brief cart overview - the **number** of items in the cart and current **subtotal**.

## Flying Effect

This is how the **flying image visual effect** looks like. It appears when a customer adds a product to the shopping cart.
