Force Cron Job Actions

Start Archiving **Archiving**

Archive Orders

To archive specific orders manually please go to the orders grid: **Sales** → **Orders**. **IMPORTANT:** All archived orders can be restored and returned to the Orders Grid.

Orders

Search by keyword  Filters Default View

20 per page

Order ID	Order Type	Purchase Date	Bill-to Name	Ship-to Name	Grand Total (Base)	Grand Total (Purchase)
100000001	Standard	Jun 15, 2017, 9:06:00 AM	Veronica Costello	Veronica Costello	\$39.64	\$39.64
100000002	Standard	Jun 15, 2017, 9:06:00 AM	Veronica Costello	Veronica Costello	\$36.39	\$36.39

- Add To Archive
- Delete Permanently
- Cancel
- Hold
- Unhold
- Print Invoices
- Print Packing Slips
- Print Credit Memos
- Print All
- Print Shipping Labels

Select Orders that should be archived and apply the '**Archive Orders**' action. Once the action is applied all archived orders will be placed to a special Archived Orders grid.

Delete Orders Permanently

To delete orders permanently please go to the orders grid: **Sales** → **Orders**. **IMPOERANT**: deleted orders can't be restored.

The screenshot shows the 'Orders' grid interface. At the top, there is a search bar with the text 'Search by keyword', a 'Filters' button, and a 'Default View' dropdown. Below the search bar, there is an 'Actions' dropdown menu that is open, showing a list of actions: 'Add To Archive', 'Delete Permanently' (highlighted with a red box), 'Cancel', 'Hold', 'Unhold', 'Print Invoices', 'Print Packing Slips', 'Print Credit Memos', 'Print All', and 'Print Shipping Labels'. To the right of the actions menu, there is a '20 per page' dropdown. The main part of the screenshot is a table with the following columns: 'Order ID', 'Purchase Date', 'Bill-to Name', 'Ship-to Name', 'Grand Total (Base)', and 'Grand Total (Purchase)'. The table contains two rows of data, both for orders purchased on 'Jun 15, 2017, 9:06:00 AM' from 'Veronica Costello' with a 'Grand Total (Base)' of '\$39.64' and '\$36.39' respectively.

Order ID	Purchase Date	Bill-to Name	Ship-to Name	Grand Total (Base)	Grand Total (Purchase)
1	Jun 15, 2017, 9:06:00 AM	Veronica Costello	Veronica Costello	\$39.64	\$39.64
2	Jun 15, 2017, 9:06:00 AM	Veronica Costello	Veronica Costello	\$36.39	\$36.39

Select the orders you want to delete on the Orders Grid and apply the corresponding action.

Manage Archived Orders

All archived orders are placed to the **Order Archive** grid. To open the grid please go to **Sales → Order Archives → Orders**.

Purchased	Main Website	Customer Group

It's possible to restore any archived order right from the Order Info page.

Working with API

With the Order Archive for Magento 2 extension, you can manage your order archive using API. There are 3 operations you are able to perform. These are:

- Move to archive;
- Return from archive;
- Permanently remove an order.

Let's dig into examples.

Move to archive

Operation: V1/amastyMoveToArchive

Description: Operation moves orders and order-related entities to archive tables amastyorderarchive%. Operation affects all the entities associated with the order: invoices, credit memos, shippings if they exist for the order.

Method: POST

Required:

```
orderid=(Array[integer])  
example: orderids=12,1,4,5
```

Example:

```
{  
  "orderIds": [  
    1, 4,5,12  
  ]  
}  
Success response code: 200  
Success response:  
{  
  "order_ids": [  
    1,  
    4,  
    5,  
    12  
  ],  
  "invoice_ids": [  
    1  
  ],  
  "creditmemo_ids": [  
    4  
  ],  
  "shipment_ids": [  
    1,  
    12  
  ]  
}
```

Error Response: 401 code - Unauthorized, 400 - unexpected error

Does not check the order existence in the database, if the order does not exist return code 200.

Move from archive

Operation: /V1/amastyMoveFromArchive

Description: Operation moves orders and order-related entities from archive tables "amastyorderarchive%". Operation affect all the entities associated with the order: invoices, credit memos, shippings if they exist for the order.

Method: POST

Required:

```
orderid=(Array[integer])
```

```
example: orderids=12,1,4,5
```

Example:

```
{
  "orderIds": [
    1, 4,5,12
  ]
}
```

Success response code: 200

Success response:

```
{
  "order_ids": [
    1,
    4,
    5,
    12
  ],
  "invoice_ids": [
    1
  ],
  "creditmemo_ids": [
    4
  ],
  "shipment_ids": [
    1,
    12
  ]
}
```

Error Response: 401 code - Unauthorized, 400 - unexpected error

Does not check the order existence in the database, if the order does not exist return code 200.

Remove completely

Operation: /V1/amastyRemovePermanently

Description: Completely removes orders and related data from the database without the possibility of their recovery.

Method: POST

Required: orderids=(Array[integer])

Example:

```
orderids=12,1,4,5
```

```
Success response code: 200
Success response:
{
  "order_ids": [
    "[\"5\"]"
  ],
  "invoice_ids": null,
  "creditmemo_ids": null,
  "shipment_ids": null
}
```

Error Response: 401 code - Unauthorized, 400 - unexpected error

Does not check the order existence in the database, if the order does not exist return code 200. Find out how to install the **Order Archive** extension for Magento 2 via [Composer](#).
