## Promotions Manager for Magento 2

The module provides you with the expanded price rules grid. Now you can save your time on promotions management process by using the new actions and columns.

- Display a rule type and a discount amount right on the grid
- Activate, deactivate and delete the rules on the grid
- Apply the actions to multiple rules at once
- Change rule priority on the grid
- Duplicate shopping cart price rules rules

---

Go to **Admin Panel→Marketing→Cart Price Rules**

Add New Rule

20 per page 1 of 1

Web Site	Priority ↓	Rule Type	Stop	Discount Amount	Action
Main Website	0	Percent of product price discount	No	70.0000	Duplicate
Main Website	1	Buy X get Y free (discount amount is Y)	No	1.0000	Duplicate
Main Website	2	Percent of product price discount	No	20.0000	Duplicate
Main Website	3	Percent of product price discount	No	70.0000	Duplicate
Main Website	4	Percent of product price discount	No	0.0000	Duplicate

The extension provides you with several new columns at the shopping cart price rules grid:

---

**Priority** - in this column a low value means a high priority.

**Rule Type** - shows the type of the rule that is used in the promotion.

**Stop** - if you choose the 'Yes', the further rules by priority will be stopped processing.

**Discount amount** - shows the discount amount which is applied to the rule.

**Action** - 'Duplicate' action allows you to duplicate individual rules. It can be very useful when you have several similar rules. In this case, you can use the first rule as a template, which will save you a lot of time with complex rules.

The screenshot shows the Magento 2 Admin Panel with the sidebar navigation on the left. The main content area displays a promotional rule named '\$4 Luma water bottle (save 70%)'. A yellow success message at the top states 'The rule has been duplicated.' Below it, the rule is listed as 'Currently Active'. The 'Rule Information' section shows the rule name '\$4 Luma water bottle (save 70%)' and a description 'Use promo code H20 at checkout'. The 'Active' switch is set to 'No'. The 'Websites' dropdown is set to 'Main Website'. The sidebar includes links for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, and System.

Once you click the '**Duplicate**' action link, you will get to the page of the duplicate rule, where you will be able to make the necessary edits and save the new rule.

## Cart Price Rules

The screenshot shows a table with the following columns: Actions, Rule, Coupon Code, Start, and End. The Actions column contains checkboxes for each rule. The Rule column lists the promotion details. The Coupon Code column shows the code used for each rule. The Start and End columns show specific dates for each rule.

Actions	Rule	Coupon Code	Start	End
<input type="checkbox"/> Delete	\$4 Luma water bottle (save 70%)	H20	Jul 4, 2017	Jul 4, 2017
<input checked="" type="checkbox"/> Enable	Buy 3 tee shirts and get the 4th free		Jul 4, 2017	Jul 4, 2017
<input type="checkbox"/> Disable	Spend \$50 or more - shipping is free!		Jul 4, 2017	Jul 4, 2017
<input type="checkbox"/> Top Priority	20% OFF Ever \$200-plus purchase!*		Jul 4, 2017	Jul 4, 2017
<input checked="" type="checkbox"/> Lowest Priority	\$4 Luma water bottle (save 70%)		--	
<input type="checkbox"/> 4	\$4 Luma water bottle (save 70%)		Jul 4, 2017	Jul 4, 2017
<input checked="" type="checkbox"/> 1	Buy 3 tee shirts and get the 4th free		Jul 4, 2017	Jul 4, 2017
<input type="checkbox"/> 2	Spend \$50 or more - shipping is free!		Jul 4, 2017	Jul 4, 2017
<input type="checkbox"/> 3	20% OFF Ever \$200-plus purchase!*		Jul 4, 2017	Jul 4, 2017
<input checked="" type="checkbox"/> 5	\$4 Luma water bottle (save 70%)		--	
<input type="checkbox"/> 6	\$4 Luma water bottle (save 70%)		Jul 4, 2017	Jul 4, 2017

**'Enable'** action lets you activate any number of the price rules.

**'Disable'** action on the opposite enables you to deactivate a shopping cart price rule. To activate it, please, take the same steps as with the '**Activate**' action.

**'Top Priority'** action lets you raise the priority of any price rule (or a number of rules) to the top. If you had some rules with 0 (zero)priority before applying the action, these rules would get downgraded.

**'Lowest Priority'** action vice versa will help you quickly downgrade rules to the lowest priority.

**'Delete'** action lets you get rid of the unnecessary price rules.

After you select the necessary action, just pick the rules and click '**Submit**' button next to the '**Actions**' dropdown.

Find out how to install the **Promotions Manager** extension for Magento 2 via [Composer](#).
