For more details see how the [Google Rich Snippets for Magento 2](#) extension works.

# Guide for Rich Snippets for Magento 2

Provide the customers with a better shopping experience using Rich Snippets extension for Magento 2. Greatly enhance your snippets in the search results.

- Add breadcrumbs to your snippets
  - Display products rating
  - Enable rich snippets on category pages
  - Show starting price data
  - Create snippets with your organization logo and name
- 

## Breadcrumbs

**Fixed Category Path** - Enable extended breadcrumbs to display on the product pages.

**Enabled** - Enable extended breadcrumbs to display in the rich snippets.

**Type** - You can modify the breadcrumbs type for the search engine, specifying a short type:

*Short Type:* **Store → Subcategory 2 → Product** instead of **Store → Category → Subcategory 1 → Subcategory 2 → Product**

## Breadcrumbs

**Enabled**  
[store view] Yes

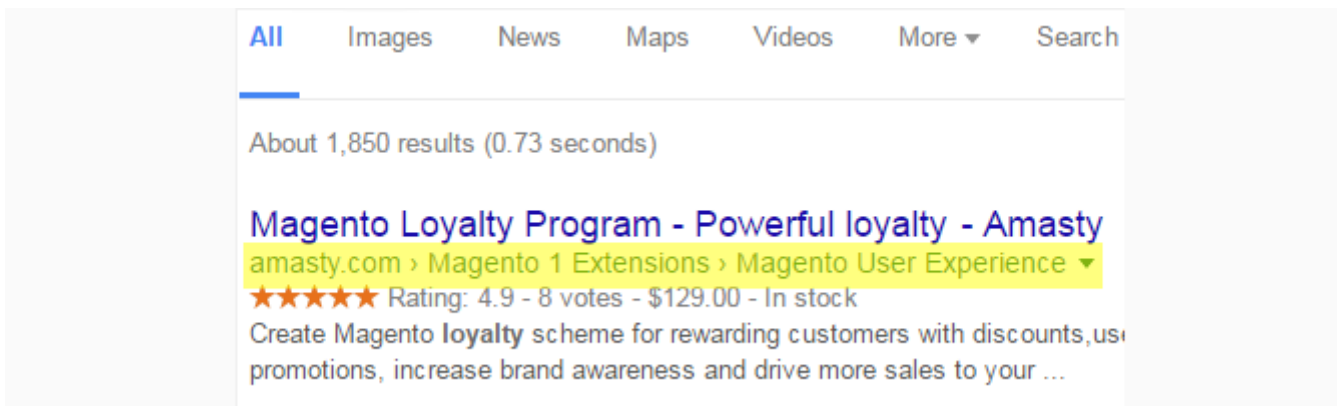

See more details [here](#)

**Fixed Category Path**  
[store view] Yes

At the Product Page use the most specific category path if no category info is available

**Type**  
[store view] Short

This setting modifies the Breadcrumbs Type for the Search Engine only. It does not modify the Breadcrumbs on the store frontend. Choose 'Short' to make "Store > Subcategory 2 > Product" instead of "Store > Category > Subcategory 1 > Subcategory 2 > Product"

## Company Attributes

Specify your **Website Name** to include it in Google rich snippets.

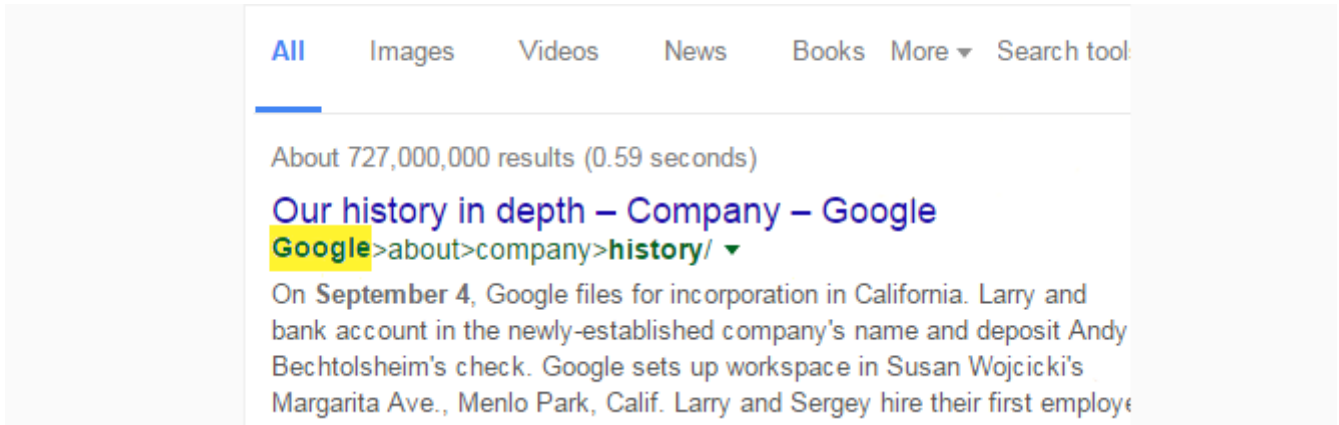

### Include Your Site Name in Search Results

**Enabled**  
[store view] Yes

See more details [here](#)

**Website Name**  
[store view] example.com

Specify **Organization Name**, **Logo URL** and other data to include it in the search results.

## Organization

**Enabled**  
[store view] Yes

See more details [here](#)

**Organization Name**  
[store view] My Organization

**Logo Url**  
[store view] https://cdn.amasty.com/v1554891958/skin/frontend/am:

**Description**  
[store view] http://example.com/

Enter the URL with the description to include in rich snippets

**Description Length**  
[store view] 150

Specify the number of characters which will be displayed in the description.

**Country**  
[store view] United States

**Region/State**  
[store view] Massachusetts

**ZIP/Postal Code**  
[store view] 02476

**City**  
[store view] Arlington

**Sales**  
[store view] +1-800-555-1212

An internationalized version of the phone number, starting with the "+" symbol and country code (+1 in the US and Canada). Examples: "+1-800-555-1212", "+44-2078225951"

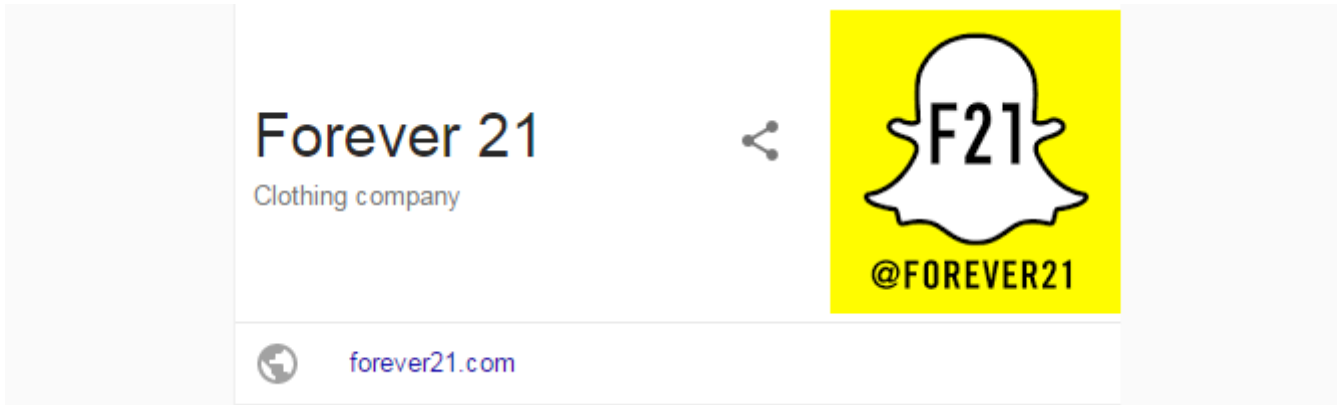

**Technical Support**  
[store view] +44-2078225951

An internationalized version of the phone number

**Customer Service**  
[store view] +44-2078247645

An internationalized version of the phone number

[Logo URL displayed in Snippets](#)

## Social Media

Add your **Social Profiles** to your Google Rich Snippets.

Available **Social Media**: *Facebook, Twitter, Google+, Instagram, Youtube, LinkedIn, Myspace, Pinterest, Soundcloud, Tumblr.*

## Social Profiles

**Enabled**  
[store view] Yes

Please enable the 'Organization' to get the 'Social Profiles' working.  
Read more details [here](#)

**Facebook**  
[store view]

**Twitter**  
[store view]

**Google+**  
[store view]

**Instagram**  
[store view]

**YouTube**  
[store view]

**LinkedIn**  
[store view]

**Myspace**  
[store view]

**Pinterest**  
[store view]

**SoundCloud**  
[store view]

**Tumblr**  
[store view]

ASOS.com

Fashion company

asos.com

ASOS.com is a British online fashion and beauty store. Primarily aimed at young adults, ASOS sells over 850 brands as well as its own range of clothing and accessories. Revenue for the financial year ending 31 August 2015 was £1,119.9 million. [Wikipedia](#)

**Headquarters:** [London, United Kingdom](#)

**CEO:** [Nick Beighton](#)

**Founded:** [June 2000](#)

**Founders:** [Nick Robertson](#), [Quentin Griffiths](#)

### Profiles

Facebook

Twitter

LinkedIn

Instagram

YouTube

[Feedback](#)

## Search Box

Display a handy **Search Box** in Google search results' snippets.

### Search Box

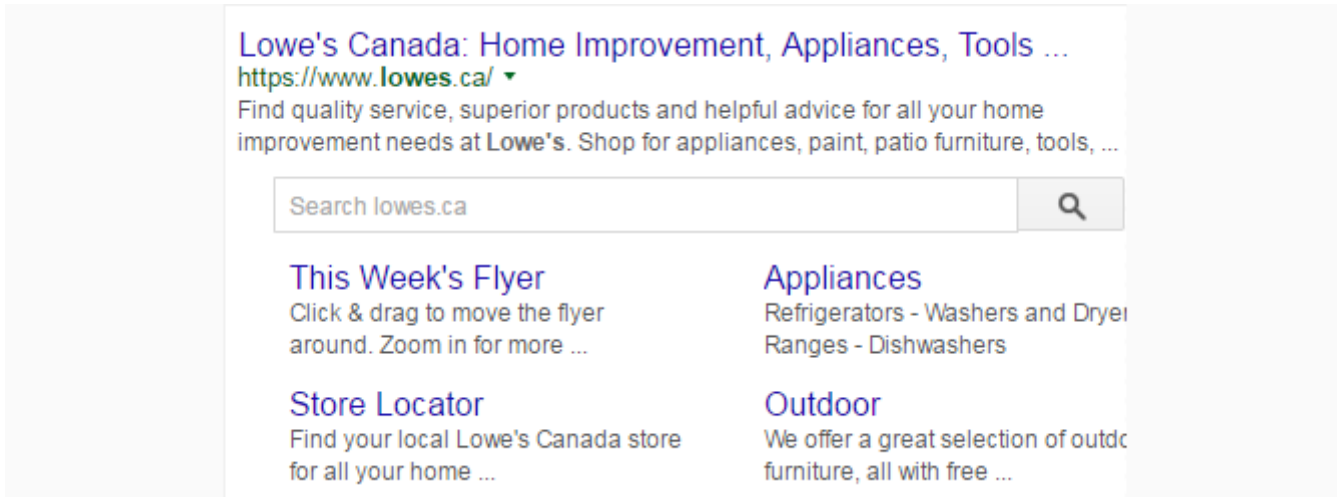

Enabled  
[store view]

Yes

Display search input box for home page in Google search results. See more details [here](#)

Google uses multiple parameters to determine the search box display such as on-site information and various types of navigational queries. Therefore, only Google decides which websites will be able to display a search box.

## Enable on Category Pages

**Enabled on Category Pages** - This option adds snippets for the products from the category they are assigned to.

### Enabled on Category Pages

**Enabled**  
[store view]

Add schema markup for each product on the category page. See the details [here](#).

-----	---

Adds product rating and review to rich data.

**Show Configurable Products as** - the feature lets Google mark all the simple products of configurable one in the relevant way, thus the simple products are shown in the search results as **Main Offers**, **List of Associated Product Offers** or **Aggregate Offers**.

Normally, Google doesn't include simple products offers in snippets, when examines configurable products.

Product		Google Structured Data Testing Tool
<b>@type</b>	Product	
<b>image</b>	 images/product/fruit/berries/br_nystrawbrry_z.jpg? lastModify=2012-06-18	
<b>description</b>	There's nothing quite like the aromatic perfume and tangy flavors of a local berry. If you've only experienced standard fresh berries, these bright red strawberries directly from local berry patches, will be a sensory revelation. Get them now – the season for local berries is short, and you could only get these little beauties fresher if you picked them yourself.	
<b>name</b>	Pell Family Farm Local Strawberries	
<b>brand</b>		
<b>@type</b>	Thing	
<b>name</b>	Pell Family Farm	

**Show Grouped Products as** - lets Google mark all the simple products of grouped product and suggest them as offers in the search result.

In Google Structured Testing Tool simple products marked as offers

sku	MJ01
image	<a href="#">http://www.3m.com/3mdata/pdf/1-yellow_main.jpg</a>
aggregateRating	
@type	AggregateRating
ratingValue	90
bestRating	100

**Description** - select what sort of description to include in rich snippets: *Product Short Description*, *Product Full Description*, *Page Meta Description*.

**Show Rating** - Enable rating in rich snippets.

**Brand**  
[store view]

**Manufacturer**  
[store view]

**Custom Properties**  
[store view]

Please click [here](#) to find out how to configure the current setting.

You can precisely specify the values of what product attribute should be employed in Rich Snippets for **Brand** and **Manufacturer** field.

[Google Structured Testing Tool](#) with *Brand* sample

<b>sku</b>	CQ2444
<b>brand</b>	
@type	Brand
name	adidas
<b>offers</b>	
@type	Offer
priceCurrency	USD
price	85

**Custom Properties** - please specify the list of comma separated [schema.org](https://schema.org) properties and attribute codes (format: property,attribute code). The attribute's values will replace/fill in the values for schema.org property in rich data.

*Example of pair: mpn, sku.* In that case mpn will be replaced with sku value.

Each pair or new added attribute has to be inserted on a new line.

If you need to add separate attribute as property for rich data, please insert just attribute code.

*Example of new attribute: test\_attribute.* If the product has a value from attribute with attribute code 'test\_attribute', then this value will be displayed in rich data.
