

Pinterest Pixel

Installation Instructions

If you purchased extension on Magento Marketplace then unpack .zip file inside **app/code/Apptrian/PinterestPixel/** directory.

If you purchased extension on our site then unpack .zip file inside your Magento root.

Run following commands on Magento root directory:

```
php bin/magento maintenance:enable
```

```
php bin/magento module:enable --clear-static-content Apptrian_PinterestPixel
```

```
php bin/magento setup:upgrade
```

```
php bin/magento cache:flush
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento maintenance:disable
```

```
php bin/magento cache:flush
```

If you do not know how to install an extension or you wish a professional to do it for you, we offer additional installation service for a small fee.

Configuration

Our extension works out of the box. The only thing you need to do is type your Pinterest Pixel ID in our extension configuration. To do this log to your Magento Admin and go to:

Stores > Configuration > Apptrian Extensions > Pinterest Pixel

All options are self-explanatory.

After changing options make sure you refresh your Magento cache.
