4. Configure language pack
5. Recommendations

### Product description

Do you want to sell your products to German customers? Or do you want to widen the reach of your store and find 50 mil new customers? This German language pack is the best choice for your Magento e-commerce store!! More than 8,000 expressions and 35,000 words - this all has been translated by professional translators for you.

We will be improving the texts with every new version or suggestion and you will receive updates every time you run composer update command. We use our own translation system available at <https://translate.aveo-trade.cz>, where anyone can find and improve our translations. We are active in translation and with [development process](#) of Magento.

### Demo

Demo is available at:

Store: <https://m2-demo-de.aveo-trade.cz/>

Admin area: <https://m2-demo-de.aveo-trade.cz/admin/>

Login: admin, Password: admin123123

### Features

- 1 Minute Installation
- Works with all browsers
- New big sector of customers
- System of updates from console
- High quality translations

If you have any inquiries, you can contact us at [info@aveo-trade.cz](mailto:info@aveo-trade.cz)

### High quality assurance

For each 20 suggested expressions validated by our translators, we will give you one year of subscription per server for free. Use our [translation system](#) to suggest the changes. Use the search function to find the phrase and place a suggestion.

## Purchase language pack

You can purchase language pack in Magento official store or AT Connect.

3. Go to locale configuration and set up the language.

## Recommendations

To set up store to German language, please run following command:

```
bin/magento config:set general/locale/code de_DE
```

To restrict store to accept only German customers please run following command:

```
bin/magento config:set general/region/state_required DE
```
