- buy extension,
- unzip archive,
- upload extension files on your server to: {Magento root}/app/code
- in Magento root folder run commands:
\$ php bin/magento setup:upgrade
\$ php bin/magento cache:flush

Features

Front office features:

- Display countdown timer block as a widget:

The screenshot displays a Magento 2 storefront. At the top, a dark grey bar contains a promotional message: "RECEIVE UP TO 20% DISCOUNT" followed by a countdown timer showing "15:21:33:10" (Days, Hours, Minutes, Seconds) and a "CHECK OUT" button. Below this, a navigation bar includes the LUMA logo, a search bar with the placeholder "Search entire store here...", and a shopping cart icon. A menu bar lists categories: "What's New", "Womenasd", "Men", "Gear", "Training", and "Sale". The main content area features a large banner with a woman in a yellow top meditating against a blue background. A white box on the right side of the banner contains the text "New Luma Yoga Collection", "Get fit and look fab in new seasonal styles", and a "Shop New Yoga" button.

Back office options:

- general widget configuration:

The screenshot shows the 'Widgets' configuration page in the Magento Back Office. The page title is 'Widgets'. In the top right corner, there are navigation buttons: 'Back', 'Delete', 'Reset', 'Save and Continue Edit', and a red 'Save' button. On the left side, there is a sidebar with 'WIDGET' and two sub-sections: 'Storefront Properties' (selected) and 'Widget Options'. The main content area is titled 'Storefront Properties' and contains the following fields:

- Type:** Aurora Top Bar Timer Block (dropdown)
- Design Package/Theme:** Magento Luma (dropdown)
- Widget Title:** Top Bar Timer (text input)
- Assign to Store Views:** A dropdown menu is open, showing options: 'All Store Views', 'Main Website', and 'Main Website Store' (Default Store View).
- Sort Order:** 0 (text input)

Below the 'Storefront Properties' section is the 'Layout Updates' section, which includes a 'Display on' dropdown set to 'All Pages' and a table for 'Container' and 'Template'.

- widget options:

The screenshot shows the 'Widget Options' configuration page in the Magento Back Office. The page title is 'Widget Options'. In the top right corner, there are navigation buttons: 'Back', 'Delete', 'Reset', 'Save and Continue Edit', and a red 'Save' button. On the left side, there is a sidebar with 'WIDGET' and two sub-sections: 'Storefront Properties' and 'Widget Options' (selected). The main content area is titled 'Widget Options' and contains the following fields:

- Custom Text:** Receive up to 20% discount (text input)
- Anchor Custom Text:** Check out (text input)
If empty, the Page Title will be used
- Anchor Custom Title:** Check out (text input)
- CMS Page:** About us (dropdown)
[Select Page...](#) (button)

Configuration:

- you can enable module and set expired date in:
Stores >> Configuration >> Aurora >> Top Bar Timer.

General Configuration

The screenshot shows the 'General Configuration' section for the 'Aurora Top Bar Timer' module. It contains two configuration items:

- Enabled [store view]:** Yes (dropdown menu)
- Expired Date [store view]:** 2019-03-31 09:10:01 (calendar icon)
