Opineo.pl Reliable Feedback

User guide

Opineo.pl Reliable Feedback for Magento 2

Module overview

The module adds an option to send a review on opineo.pl request email after a successful transaction.

How it works

To configure the module, first you must define an agreement that the customer will have to accept in order to allow sending the email. To do that, go to **Stores > Terms and Conditions** and create a new agreement.

Next, in to enable the module head to **Stores > Configuration > Customers > Customer Configuration** and find **Reliable Opinions opineo.pl** fieldset.
