

# Settings System

1° To enable the module, go to Stores> Configuration.

2° In the left menu click BxSlider> Configurations

4° In the Enable field select Yes.

5° If you have advanced knowledge about the BxSlider plugin, change the default options to the options field by following the note below.

\*Obs: The Options field is filled by default, change this field only if you have knowledge about the BxSlider plugin, if you add some option keep the format that is, options separated by ":" and "," between one option and another, keep the comma After the last option, remaining in the following format:

**option1:value1,  
option2:value2,  
option3:value3,**

6° After the settings are applied, click Save Config.

## BxSlider Banner Settings

Banner BxSlider works as follows, you can register several items where each item is a slider and then link these items to the desired Banner, let's start by registering a Banner, follow the steps below:

1° Access the administrative panel of Magento with your login and password and with administrator permission.

2° From the admin menu click Contents> BxSlider as shown below:

4° You will see the grid of registered banners as this is the first Banner I believe you will see the screen as below:

BxSlider | Banner 🔍 🔔 1 admin ▾

[Manage item banner](#) [Add new banner](#)

Search [Reset Filter](#) 1 records found 20 per page < 1 of 1 >

ID	Identifier	Title	Status	Active From	Active To	Created	Update
1	home	Enter banner title here	Enable	From: <input type="text"/> To: <input type="text"/>	From: <input type="text"/> To: <input type="text"/>	Apr 30, 2017, 9:00:00 PM	May 3, 2017, 9:00:00 PM

5° To register the Banner click on Add new Banner.

6° You will be redirected to the Banner registration form.

7° Fill out the form with your information according to the example below:

**Thumbnail**  

**Content**

**B** **I** **U** **ABC**                                              

12° Here we will insert in the CMS Home Page as below:

Home Page ← Back Delete Page Reset Save and Continue Edit Save Page

Page Title \*

Content ↕

Content Heading

Show / Hide Editor Insert Widget... Insert Image... Insert Variable...

```
{{block class="Jbp\BxSlider\Block\BxSlider" banner_id="ID_BANNER"}}
```

Replace ID\_BANNER with the actual banner id in our case would look like this:

- **{{block class="Jbp\BxSlider\Block\BxSlider" banner\_id="1"}} .**

After you have made the settings, click Save Page.

13° Clear the cache and go to the Home Page on the Frontend and you will see the result below:

Enter banner title here
