

1. Introduction to Product Sorting

Often clients need a really flexible product sorting to find the product they need. But the default Magento includes only Sorting by Position (set for the category) and by attributes. These criteria are not enough to let users find the products they need.

The more criteria for search users see, the more confident they feel and the better experience they have on your store. Improve user experience and let your customers enjoy product sorting!

In the latest version you will find more popular non-standard sorting features and it is compatible with Magento 2.0.

Key features:

- Sorting by discount amount or discount percentage applied;
- Managing new and existing sorting categories;
- Editing the order of sorting categories;
- 8 additional attributes for product sorting

This extension allows sorting products by the following criteria:

- Most Recent
- Best Sellers
- Best Viewed
- Discount
- Rating
- Reviews Count
- Popular in Wishlist
- Quantity

2. How to Configure

Log in to the admin panel, and we will show you how to configure the extension step by step.

How to create sorting attribute

You create additional sorting attributes the same way you work with standard attributes. Move to **Stores=>Attributes=>Products**. Here is your grid with existing attributes, and you should press Add New Attribute button to perform this action.

Product Attributes

Create new attribute → **Add New Attribute**

Search [Reset Filter](#) 62 records found 20 per page 1 of 4

Attribute Code	Default label	Required	System	Visible	Scope	Searchable	Use in Layered Navigation	Comparable
activity	Activity	No	No	Yes	Global	No	Filterable (with results)	Yes
category_gear	Category Gear	No	No	Yes	Global	No	Filterable (with results)	No
category_ids	Categories	No	Yes	No	Global	No	No	No
climate	Climate	No	No	Yes	Global	No	Filterable (with results)	No
collar	Collar	No	No	Yes	Global	No	Filterable (with results)	No
color	Color	No	No	No	Global	No	Filterable (with results)	No

Fill in all required fields to create new attribute.

price

Fill in the required fields

← Back Reset Save and Continue Edit **Save Attribute**

ATTRIBUTE INFORMATION

- Properties
- Manage Labels
- Storefront Properties

Attribute Properties

Default label * Price

Catalog Input Type for Store Owner Price

Values Required Yes

Advanced Attribute Properties

Go to **Storefront Properties** tab and choose Yes option for using a new attribute in product list sorting.

The screenshot shows the configuration page for the 'price' attribute. The left sidebar contains navigation options: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'price' and includes a 'Save Attribute' button. Under 'ATTRIBUTE INFORMATION', the 'Storefront Properties' section is active. The configuration options are as follows:

- Use in Search: Yes
- Search Weight: 1
- Visible in Advanced Search: Yes
- Comparable on Storefront: No
- Use in Layered Navigation: Filterable (with results)
Can be used only with catalog input type Dropdown, Multiple Select and Price
- Use in Search Results Layered Navigation: No
Can be used only with catalog input type Dropdown, Multiple Select and Price
- Position: 0
Position of attribute in layered navigation block
- Use for Promo Rule Conditions: No
- Visible on Catalog Pages on Storefront: No
- Used in Product Listing: Yes
Depends on design theme
- Used for Sorting in Product Listing: Yes (highlighted with a red circle and arrow)
Depends on design theme

Select "Yes" for this option

How to manage sorting attributes

In order to configure this extension, navigate to **Stores => Configuration**. Then select "**Product Sorting**" under "**BeIVG Extensions**".

The screenshot shows the Magento configuration interface for the 'Product Sorting' extension. The left sidebar contains navigation options: DASHBOARD, PRODUCTS, STORES, and SYSTEM. The main content area is titled 'Configuration' and includes a 'Save Config' button. The 'General' section shows the extension is 'Enabled For Frontend' (Yes) for the '[STORE VIEW]'. The 'Settings' section displays a table of sorting criteria available for the current store.

Code	Label	Order	Enable	Action	[WEBSITE]
position	Position	0	<input checked="" type="checkbox"/>		
price	Price	10	<input checked="" type="checkbox"/>	Edit	
name	Name	10	<input checked="" type="checkbox"/>	Edit	
recent	Most Recl	20	<input checked="" type="checkbox"/>		
bestsellers	Best Selle	21	<input checked="" type="checkbox"/>		
bestviewed	Best View	22	<input checked="" type="checkbox"/>		
discount	Discount	23	<input checked="" type="checkbox"/>		
rating	Rating	24	<input checked="" type="checkbox"/>		
reviews	Reviews C	25	<input checked="" type="checkbox"/>		
wishlist	Popular ir	26	<input checked="" type="checkbox"/>		
stock	Quantity	27	<input checked="" type="checkbox"/>		

- **Enabled For Frontend (Yes / No)** - this option enables or disables the extension for the Frontend.
- **Current store has the following sorting criteria available** - here you can manage the name, order, and disable or enable sorting criteria.
 - **Code** - it's the name of the criteria for internal use. If you would like to change the name of criteria that will be displayed on your store, you can do it in the “**Label**” column.
 - **Order** - in this column you can define the order in which the criteria will be displayed in the Sorting on Frontend. Enter the numbers to change the order.
 - **Enable** - here you can enable or disable sorting criteria by selecting or unselecting the checkbox.

Extension configurations

Configuration

Save Config

Images priority	<input type="text" value="No"/>	[STORE VIEW]
	<small>Show products without image last</small>	
Products in stock priority	<input type="text" value="No"/>	[STORE VIEW]
	<small>Show out of stock products last</small>	
Apply the 'New from Date' - 'New to Date' attributes for the 'recent' sorting	<input type="text" value="Yes"/>	[STORE VIEW]
	<small>otherwise only by creation date</small>	
Discount	<input type="text" value="Discount percentage"/>	[STORE VIEW]

Periods ⊖

Period for 'Best Sellers'	<input type="text" value="180"/>	[STORE VIEW]
	<small>days (empty - full period)</small>	
Period for 'Best Viewed'	<input type="text" value="30"/>	[STORE VIEW]
	<small>days (empty - full period)</small>	
Period for 'Popular in Wishlist'	<input type="text" value="90"/>	[STORE VIEW]
	<small>days (empty - full period)</small>	

- **Images priority** - select “yes” if you want products with images to have higher priority in sorting.
- **Products in stock priority** - select “yes” if you want products available in stock to have higher priority in sorting.
- **Apply the 'New from Date' - 'New to Date' attributes for the 'recent' sorting** - for products that are defined as new, the sorting is applied not by the date of their actual creation, but by the date that is defined in the “New From / To Date” section.
- **Discount** - define whether you want the “discount” criteria to sort products by the percent or by the actual amount of discount.
- **Periods** - define the periods for which the products are “Best Sellers”, “Best Viewed” and “Popular in Wishlist”.

3. How to Use

All the product sortings that you selected in the admin are available on the catalog page.
