

# **Biller Plugin Guide**

For Magento 2

## Biller

Paying on invoice causes major cash flow disruption. Suppliers expect payment within 30 days. But buyers often need more time than that. Get ready for the next step: Biller. The payment solution that advances both sides. We pay out every invoice on time. And buyers get to choose Buy Now, Pay Later.

To make the integration process as easy as possible for you, Biller offers an easy integration using this Magento® 2 Plugin. Before you start up the installation process, we recommend that you make a backup of your webshop files, as well as the database.

## Installation using Composer

Magento® 2 use the Composer to manage the module package and the library. Composer is a dependency manager for PHP. Composer declare the libraries your project depends on and it will manage (install/update) them for you.

Check if your server has composer installed by running the following command:

```
composer -v
```

If your server doesn't have composer installed, you can easily install it by using this manual:

<https://getcomposer.org/doc/00-intro.md>

Click [here](#) to open the page with the terms and (license) conditions of the extensions/software of Magmodules B.V, registered at the Kamer van Koophandel with number: 59730404, trading as Magmodules.

## Step-by-step to install the Magento® 2 extension through Composer:

1. Connect to your server running Magento® 2 using SSH or other method (make sure you have access to the command line).
2. Locate your Magento® 2 project root.
3. Install the Magento® 2 extension through composer and wait till it's completed:  
**composer require biller-ai/magento2**
4. Once completed run the Magento® module enable command:  
**bin/magento module:enable Biller\_Connect**
5. After that run the Magento® upgrade and clean the caches:  
**php bin/magento setup:upgrade**  
**php bin/magento cache:flush**
6. If Magento® is running in production mode you also need to redeploy the static content:  
**php bin/magento setup:static-content:deploy**
7. After the installation:  
Go to your Magento® admin portal and open 'Stores' > 'Configuration' > 'Biller' > .

## Configuration & the Knowledge Base

In our knowledge Base, we add the most frequently asked questions from this Magento® extension and we set up a clear guide to help you with the installation and configuration. Please feel free to ask any further questions so we can complete this knowledge base for the benefit of all as this knowledge base is designed to offer a complete support option in self-service.

It allows you to search for the frequently requested actions or have a peek in the configuration settings to get the most out of the extensions.
