

Manual Reindex

- Reindex your website database right from the admin panel, without the command line and web administrator's help.
- In the admin panel, go to System -> Tools -> Index Management

- You'll come to the index management page.

- Next, select required (invalidated) index and in "Actions" dropdown above the table and select "Update now" and press "Submit" button.

- Wait until the reindex is complete.
- Magento might ask you to update the cache – do it.

System Messages: 1

One or more of the Cache Types are invalidated: Page Cache. Please go to [Cache Management](#) and refresh cache types.
