

# HTML5 Audio Player Configuration Guideline

Below are instructions on how to Configure the **HTML5 Audio Player** extension for magento2 on your website .

## Enable Module

**Navigate to Store >> Configuration >> BPLUGINS >> Audio Player and Enable Module**

By enabling modules, all Audio Players will visible on websites, and for hide all Disable this option

The screenshot displays the Magento 2 Configuration interface. On the left, a vertical sidebar contains various configuration categories: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, AND PARTNERS & EXTENSIONS, and BPLUGINS. The BPLUGINS category is selected, and its sub-items are listed in a dropdown menu: GENERAL, BPLUGINS (highlighted with a red box), AudioPlayer, CATALOG, SECURITY, CUSTOMERS, SALES, YOTPO, DOTDIGITAL, SERVICES, and ADVANCED. The main content area shows the 'Configuration' page for the 'Default Config' scope. A 'Save Config' button is visible in the top right. The 'Enable Audio' setting is currently set to 'Enable'.

# Create Audio Player

Navigate to **BPLUGINS >> Audio Player >> Add New Audio Player.**

- Upload Audio file, and give name for assign it in products
- Select Player Options you wants to display on Audio Player

# Assign Audio Player

Admin can Assign Audio Player to Products from Audio Player Edit Page or from Product Page both.

- Assign to Products from Audio Player Edit Page

-> Select Audio Player and navigate to bottom and select Products you want to assign

-> Reset Product filter for show all Products

-> Select Products you want to Assign

-> Save Audio Player

The screenshot displays the 'New Audioplayer' configuration page in an admin dashboard. The page includes a sidebar with navigation options like Dashboard, Sales, Catalogs, Customers, Marketing, Content, Reports, Stores, System, and Integrations. The main content area features a 'Preload' dropdown set to 'Auto - Browser should load the entire audio file when the page loads.', a 'Border Radius' input field, and a 'Repeat' toggle set to 'No'. Below these is a 'Products Fieldset' section with a search bar and a table of 2046 records. The table has columns for 'ID', 'Name', and 'SKU'. The first 12 rows are visible, with checkboxes in the 'ID' column for selection. The last row (ID 12) is highlighted. A 'Save Audioplayer' button is located in the top right corner.

ID	Name	SKU
1	Joust Duffle Bag	24-MB01
2	Strive Shoulder Pack	24-MB04
3	Crown Summit Backpack	24-MB03
4	Wayfarer Messenger Bag	24-MB05
5	Rival Field Messenger	24-MB06
6	Fusion Backpack	24-MB02
7	Impulse Duffle	24-UR02
8	Voyage Yoga Bag	24-WB01
9	Compete Track Tote	24-WB02
10	Savvy Shoulder Tote	24-WB05
11	Endeavor Daytrip Backpack	24-WB06
12	Driven Backpack	24-WB03

- Assign to Products from Product Edit Page

-> Navigate to Catalog >> Products >> Edit Product

-> Move to Audio Attachment Section

-> Reset filter for show all Audio Player

-> Select Audio Player you want to Assign

-> Save Product

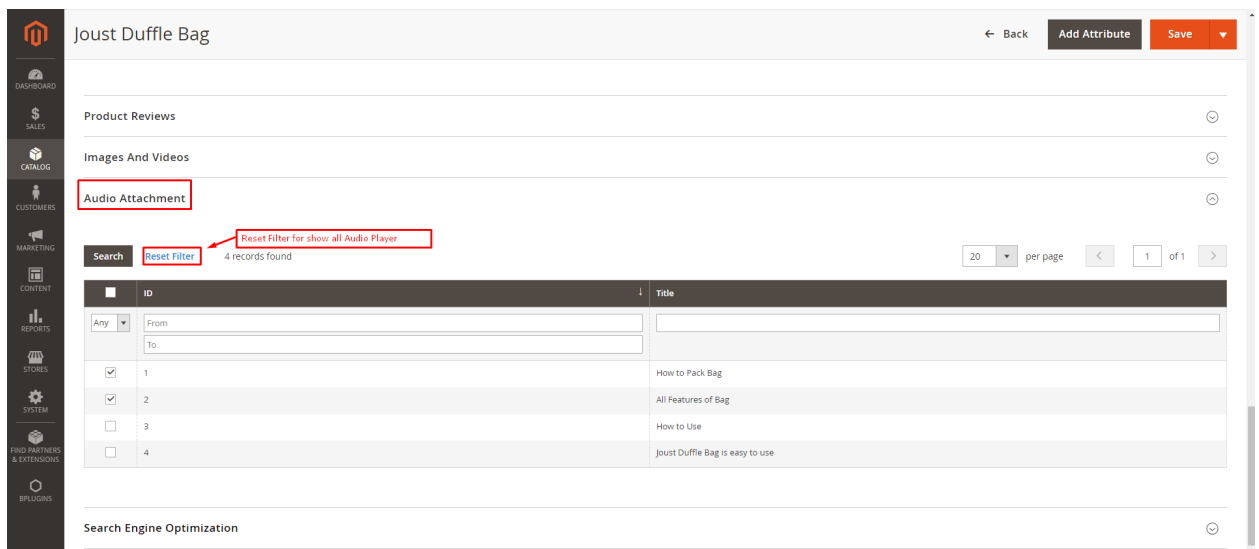

The screenshot shows the 'Joust Duffle Bag' product edit page. The left sidebar contains navigation options: Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, Find Partners & Extensions, and Plugins. The main content area is titled 'Joust Duffle Bag' and includes a 'Back' button, 'Add Attribute', and 'Save' buttons. Below the title are sections for 'Product Reviews', 'Images And Videos', and 'Audio Attachment'. The 'Audio Attachment' section is highlighted with a red box. Below it is a search and filter area with a 'Reset Filter' button, also highlighted with a red box. A red arrow points to the 'Reset Filter' button with the text 'Reset Filter for show all Audio Player'. Below the search area is a table with 4 records. The table has columns for 'ID' and 'Title'. The records are:

ID	Title
1	How to Pack Bag
2	All Features of Bag
3	How to Use
4	Joust Duffle Bag is easy to use
