

Super Video Player Installation Guideline

Below are instructions on how to install the Super Video Player extension for magento2 on your website .

1. Login to your server instance

2. Execute command `cd /var/www/Magento/app/code` or `cd /var/www/html/Magento/app/code` based on your server

3. Create Directory `Bplugins/VideoPlayer`. use command for linux server `mkdir Bplugins/VideoPlayer`

4. Expand the Super-Video-Player.zip file

5. Make sure you have the correct read/write permissions on your Magento root directory.

6. To enable the module execute `php bin/magento module:enable Bplugins_VideoPlayer` on magento root folder

7. Execute `php bin/magento setup:upgrade`

8. Execute `php bin/magento setup:static-content:deploy`

9. Execute `php bin/magento setup:di:compile`

10. Execute `php bin/magento cache:clean`
