### 2.2 Contact details

If you have any inquiries, please contact the following department:

#### Support team

[support@brandcrock.com](mailto:support@brandcrock.com)

Tel.: +49 (0) 89 2154 7447

Tel.: +49 (0) 89 374 27878

### 3. INSTALLATION OF THE EXTENSION

#### 3.1 About this Extension

**Recent Sales Notification** extension displays a Pop-up in shop frontend with recently sold products and purchased time. The number of products to be displayed, background color of the pop-up and text color can be customized. Additionally, specific products can be excluded from appearing in the pop-up. When the end-user closes the notification, the pop-up will not reappear for that browser session. The recently sold products display on in the homepage.

#### 3.2 Installation procedures

**Step 1:** Extract the **BrandCrock\_RecentSalesNotification.zip** file archive.

**Step 2:** Login to the web server via FTP client and go to your Magento 2 directory.

**Step 3:** Create directory `app/code/BrandCrock/PurchasedProductPopup`

**Step 4:** Upload all extracted files to the extension directory.

**Step 5:** Now in your terminal, from Magento 2 root path execute the following command to enable the RecentSalesNotification Extension.

**php bin/magento module:enable BrandCrock\_RecentSalesNotification**

```
File Edit View Search Terminal Tabs Help
brandcrock@stn42:/var/www/magento2$ php bin/magento module:enable BrandCrock_RecentSalesNotification
```

**Step 6:** Then, setup your RecentSalesNotification tables by using the following command.

**php bin/magento setup:upgrade**

```
File Edit View Search Terminal Tabs Help
brandcrock@stn42:/var/www/magento2$ php bin/magento setup:upgrade
```

**Step 7:** Next, you will be asked to re-compile the extension. To re-compile run the below command.

**php bin/magento setup:di:compile**

```
File Edit View Search Terminal Tabs Help
brandcrock@stn42:/var/www/magento2$ php bin/magento setup:di:compile
```

**Step 8:** Finally, execute the following to deploy RecentSalesNotification files.

**php bin/magento setup:static-content:deploy -f**

```
File Edit View Search Terminal Tabs Help
brandcrock@stn42:/var/www/magento2$ php bin/magento setup:static-content:deploy -f
```

## 4. GENERAL CONFIGURATIONS
