

GROUPED PRODUCT WITH CUSTOM OPTIONS FOR MAGENTO 2 INSTALLATION GUIDE

After finishing purchasing process, we will immediately send you an email containing the link to download this extension.

Step 1:

Unzip the file.

Step 2:

Create another directory called **app/code/Bss/GroupedProductOption/**. **GroupedProductOption** is the module's internal identifier. You can find it in the "composer.json" file in the extension ZIP file you downloaded, look at the node "psr-4".

This is what you call the directory, and then you put the contents of the extension ZIP file in there.

Step 3:

Upload the directory **app/code/Bss/GroupedProductOption/** into the root directory of your Magento installation. The root directory of Magento is the directory that contains the directories "app", "bin", "lib" and more. All directories should match the existing directory structure.

Step 4:

Go to Magento 2 root directory.

Run: `php bin/magento setup:upgrade.`

Step 5:

Run: `php bin/magento setup:static-content:deploy.`

Step 6:

Clear all Caches.

***Note**

After purchasing this module, just send us an email to support@bsscommerce.com, BSS Support Team will help you to install this extension immediately.

In case you have followed all above steps but the extension still doesn't work properly, you can delete the file or change the module's filename to keep your website function as normal.
