1. Grouped Product with Custom Options for Magento 2 Extension Overview

Grouped Product is an amazing type of product that supports showing multiple products for order on a single page. However, as you know, the default of Magento only allows admin to add simple products without custom options to a grouped product. Whereas, Grouped Product with Custom Options for Magento 2 supports adding simple products with custom options and configurable products to a grouped product, which makes customers purchase grouped product more conveniently when having more choices to select their wanted attributes of products.

2. How Does Grouped Product with Custom Options for Magento 2 Extension Work?

2.1. In the Frontend

Here is the frontend of Magento 2 Grouped Product with Custom Options extension:

Show configurable product in the grouped product page

Show custom options of simple product

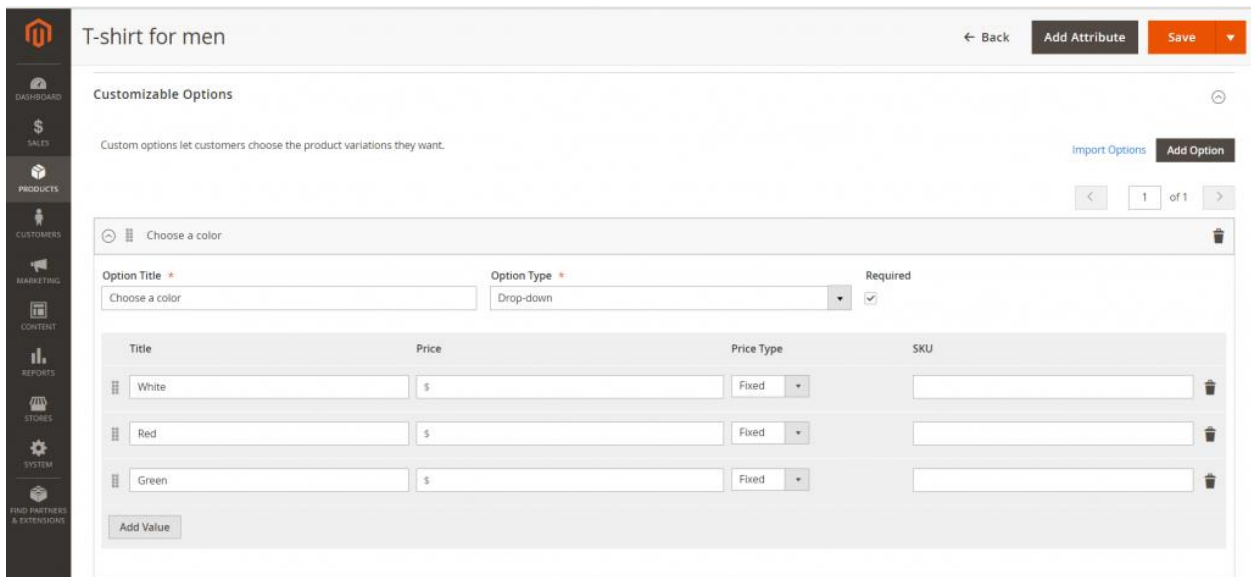

2.2. In the Backend

2.2.1. Create Simple product with custom options

- Go to **Product Catalog**
- Click **Add Product**, then choose Simple product
- Fill in all blanks as you create a Simple product

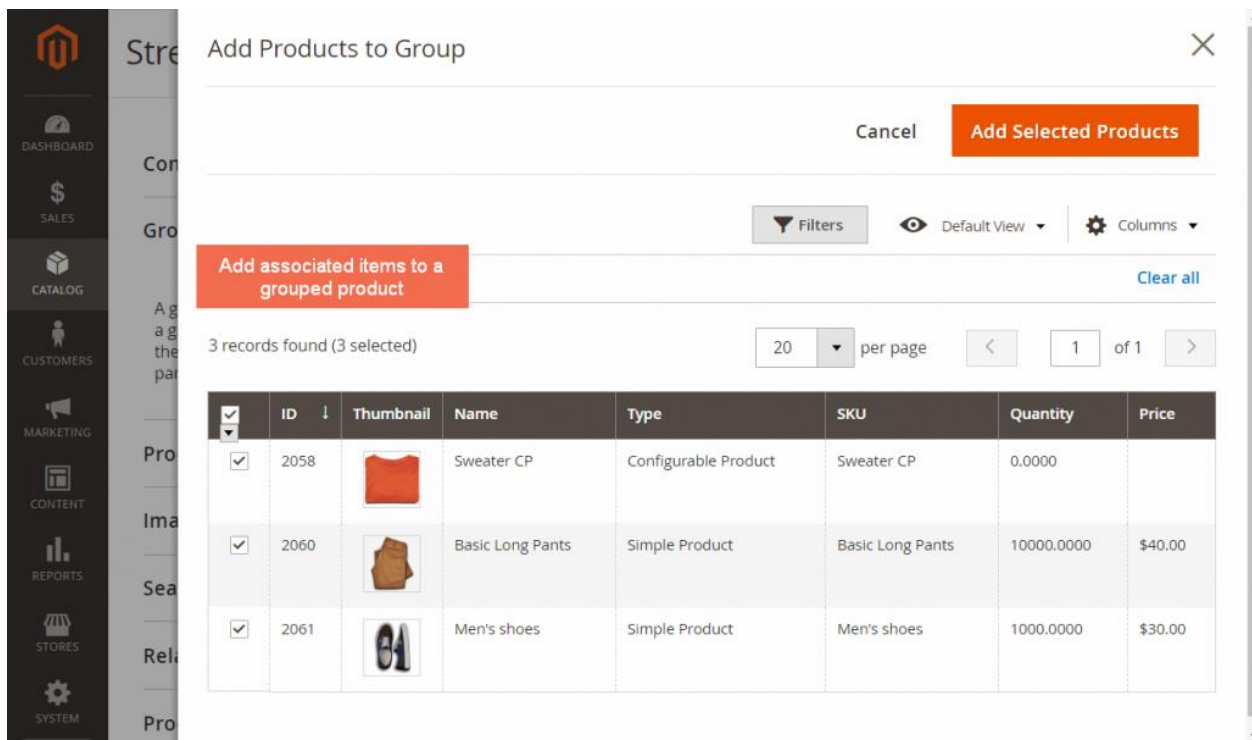

- Then scrolling down to **Customizable Options** configuration, click Add Option:

- **Save** the product. Now you have a simple product with custom options

2.2.2. Add Associated products to a grouped product

- Go to **Product → Catalog**
- Choose a grouped product you need to add associated items.

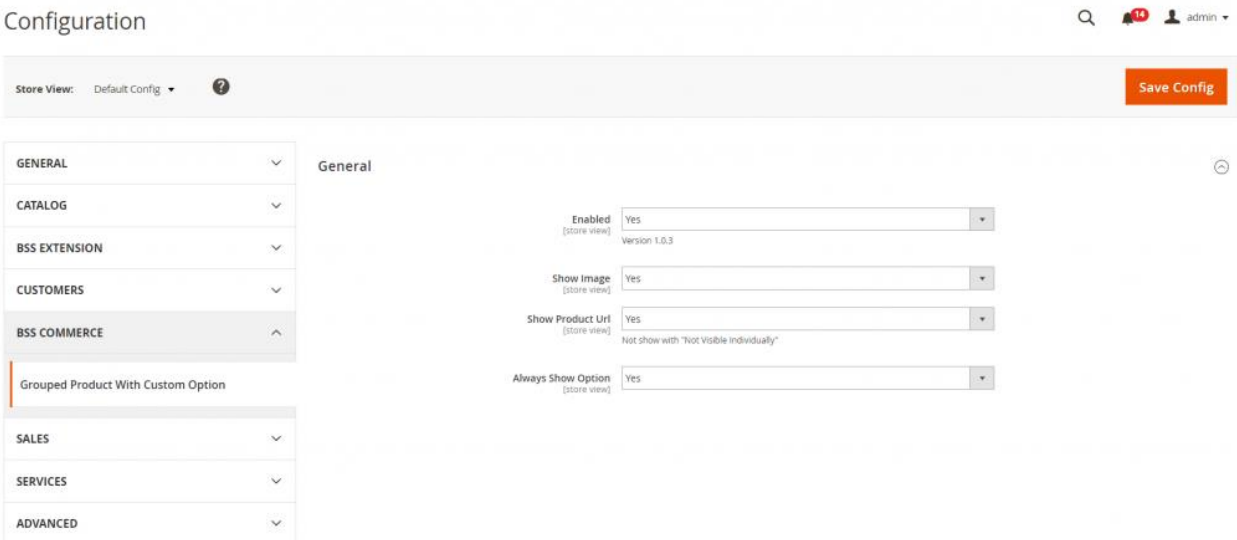

At **Grouped Products** tab, click **Add Products to Group**, then select simple products with custom options and configurable products you want.

- Next, choose **Add Selected Products**.
- **Save**

2.2.3. Configuration

Now you enable this module as follow: Go to **Stores → Configuration**

- **Enabled:**
 - Choose **Yes** to enable the module.
 - Choose **No** you still can add associated items to grouped products; however, in the frontend, they will be shown as unavailable.
- **Show Image:**
 - Choose **Yes** if you want to show the image of simple product with custom options.
 - If you do not want that, choose **No**.
- **Show Product URL:**
 - Choose **Yes** if you want to link to the product page of associated product with custom options.
 - Choose **No** if you do not want.
- **Always Show Option:** Choose **Yes** to show product options always (not only when users change the quantity to positive number).
