

User Guide

1. Overview

[Magento 2 Maximum Order Quantity per Product extension \(https://bsscommerce.com/magento-2-maximum-order-quantity-per-product.html\)](https://bsscommerce.com/magento-2-maximum-order-quantity-per-product.html) lets you set restrictions on the maximum quantity of each product that your customers can buy within a calendar month. Hence, you can make better inventory planning and avoid sending order rejection emails to customers.

2. How Does It Work?

2.1. In the Backend

As this extension allows you to set restrictions on two levels on configuration, with product config having higher priority than global config, we will look at them respectively.

First of all, please go to Stores → Configuration → BSS Commerce → Order Restriction and set Yes to Enable our module.

2.1.1. Global Config

Please go to Stores → Configuration → Catalog → Inventory → Product Stock Options.

In the Limit Product Quantity per Month field, uncheck the Use System Value checkbox, and enter the global limit that you want to set as the maximum order quantity within a calendar month for all products. Do not forget to hit Save.

The screenshot shows the 'Product Stock Options' configuration page in the Magento 2 Admin Backend. The 'Scope' is set to 'Default Config'. The left sidebar shows the navigation path: CATALOG > Inventory > BSS COMMERCE. The main content area is titled 'Stock Options' and 'Product Stock Options'. A note states: 'Please note that these settings apply to individual items in the cart, not to the entire cart.' The 'Limit Product Quantity Per Month' field is highlighted with a red box, showing the value '10' and the 'Use system value' checkbox is unchecked. Other fields include 'Manage Stock' (Yes), 'Backorders' (No Backorders), 'Maximum Qty Allowed in Shopping Cart' (10000), 'Out-of-Stock Threshold' (0), and 'Minimum Qty Allowed in Shopping Cart' (Customer Group, Minimum Qty, Action). A 'Save' button is visible in the top right corner.

*Note: If you leave this field blank, then there will be no global limit for all products.

2.1.2. Product Config

If you want to set a special limit for any specific product, please go to that product detail page then expand the Advanced Inventory section.

In the Limit Product Quantity per Month field, uncheck the Use Config Settings field, and enter the maximum order quantity per month for this product.

The screenshot displays a configuration interface with the following elements:

- Minimum Qty Allowed in Shopping Cart** [global]: Input field contains '1', with a checked checkbox for 'Use Config Settings'.
- Maximum Qty Allowed in Shopping Cart** [global]: Input field contains '10000', with a checked checkbox for 'Use Config Settings'.
- Limit Product Quantity Per Month** [global]: Input field contains '10', with a checked checkbox for 'Use Config Settings'. This entire section is enclosed in a red rectangular box.
- Qty Uses Decimals** [global]: A dropdown menu currently set to 'No'.
- Allow Multiple Boxes for Shipping** [global]: A dropdown menu currently set to 'No'.

*Note: If you leave this field blank, then there will be no limit for this product.

2.2. In the Frontend

When customers order a product with a quantity greater than the limit (first time in the month) or the remaining limit (second time and forth), they will receive an error message.

2.2.1. When placing an order with surpassed quantity on the product page

× You have reached the order limit per month for Joust Duffel Bag (max 5).

Joust Duffel Bag

Shopping Cart

 You have reached the order limit per month for Joust Duffle Bag (max 5).

Item	Price	Qty	Subtotal
 Joust Duffle Bag	\$34.00	<input type="text" value="20"/>	\$680.00

[Move to Wishlist](#)  

[Apply Discount Code](#) 

Summary

Estimate Shipping and Tax 

Subtotal	\$680.00
Discount	-\$136.00
Shipping (Flat Rate - Fixed)	\$100.00
Order Total	\$644.00

If you change the limit of any product within the month or prioritize the product config over general config, then the limit will be automatically adjusted. Also, if an order is canceled or refunded, like with the case of inventory being added back, the limit will be adjusted accordingly.
