

# User Guide

---

## 1. Overview

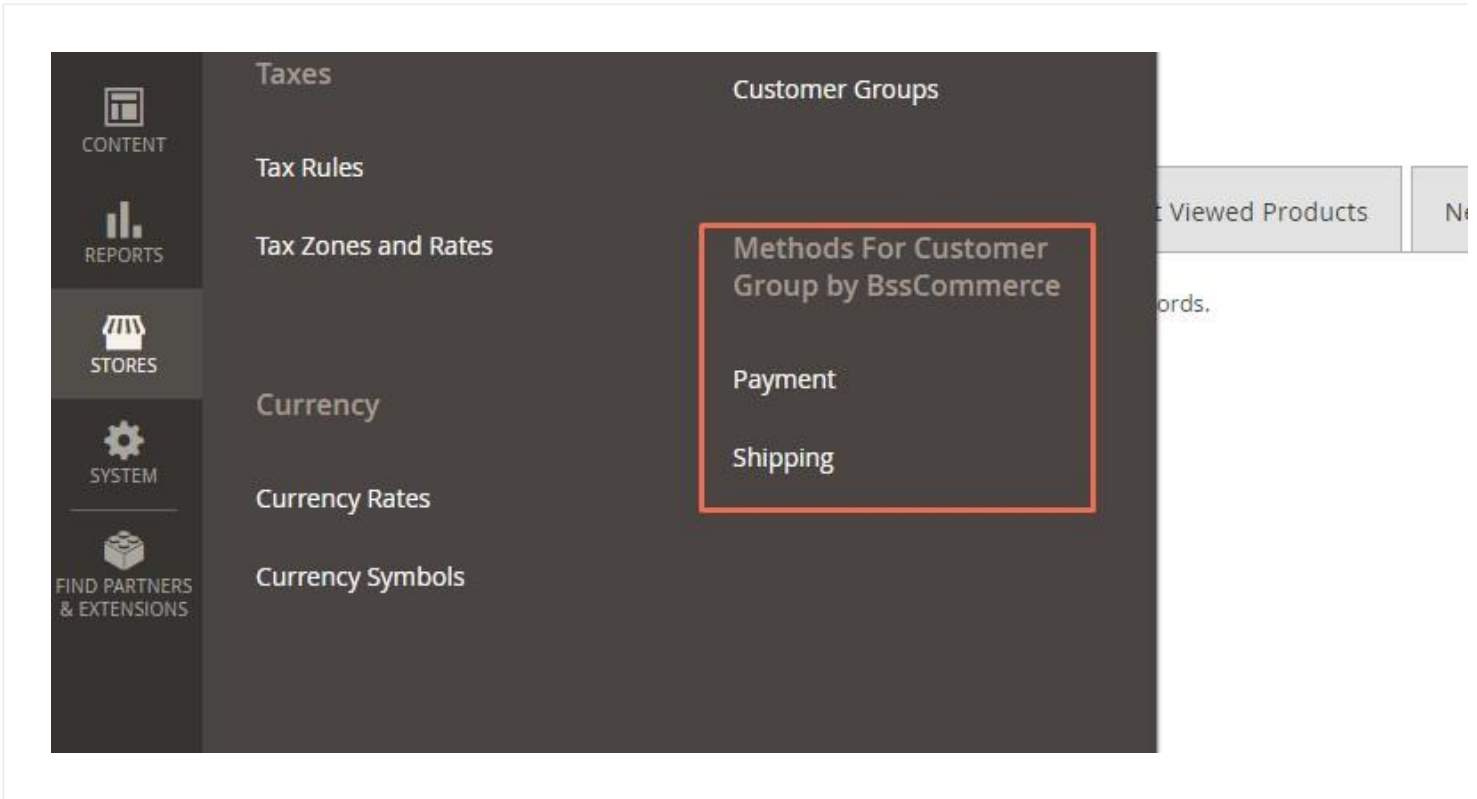

Shipping and Payment Method per Customer Group extension for Magento 2 allows admin to assign shipping and payment methods to specific customer groups, thus promotes better order management and faster customer checkout process.

## 2. How Does It Work?

First, open **STORES ⇒ Configurations:**

- In **Enabled Payment:** Choose *Yes* to enable the function of Payment method.
- In **Enabled Shipping:** Choose *Yes* to enable its function of Shipping method.

Then, go to **STORES ⇒ Methods for Customer Group by BssCommerce ⇒ Payment / Shipping**

**In Payment**

In **Payment Methods**, choose one or multiple customer groups in each of the enabled payment methods available.
