1. Pop-up for Magento 2 Overview

[Pop-up for Magento 2 extension](#) helps you create eye-catching pop-up that is highly flexible and customizable for many purposes, such as promotion, notification, guideline, or newsletter. You decide where to display the pop-up, set display animation, and apply for customer groups or store views.

2. How Does Pop-up for Magento 2 Work?

2.1. General Configuration

General Configuration

Enable <small>[store view]</small>	Yes	▼
---------------------------------------	-----	---

Version 1.0.0

Please go to **Stores** → **Configuration** → **BSSCommerce** → **Pop-up** → **General Configuration**.

In **Enable**, choose Yes to enable the extension, or No to disable it.

2.2. Manage Pop-up Grid

Go to **Marketing** → **BSSCommerce Pop-up** → **Manage Pop-up**.

Manage Pop-up

[Create New Pop-up](#)

2 records found

 per page

1 of 1

<input type="checkbox"/>	ID ↓	Name	Enable	Display Rule	Displayed Pages	Store Views	Customer Groups	Start Date	End Date	Action
<input type="checkbox"/>	1	Sunflower	Yes	After page scrolled X percent	Home Page	All Store View	NOT LOGGED IN, General	Jan 10, 2018 6:17:18 PM	Jan 9, 2019 6:15:18 PM	Edit
<input type="checkbox"/>	2	Newsletter Subscribe	Yes	After page loaded X second	Cart Page	All Store View	NOT LOGGED IN, General, Wholesale, Retailer			Edit

Manage Pop-up grid shows all pop-up you have created with full information, including: Pop-up Name, Enable, Display Rule, Displayed Pages, Content, Store Views, Customer Groups, Start Date and End Date. The **Manage Pop-up grid** works just like standard grid in Magento 2 default with features such as mass action (delete, enable, disable), filter and column display.

2.3. How to Create New Pop-up

Please click on the **Create New Pop-up button** located on the top right of the grid. You will be redirect to the **New Pop-up Page**, which has 3 tabs:

- General
- Display Rule
- Content and Design

There are 4 buttons to support creating new pop-up:

- Back
- Reset
- Save and Continue

- Save Pop-up

2.3.1. General

General Information

Enable * Yes ▼

Name * Sunflower

Store Views *
All Store Views
Main Website
Main Website Store
Default Store View
French
Store 2
vietnam

Customer Groups *
NOT LOGGED IN
General
Wholesale
Retailer

Start Date 2018-01-10 11:17:18 

End Date 2019-01-09 11:15:18 

Priority 99

In **Enable**, choose Yes to enable the new pop-up.

In **Name**, enter the pop-up's name.

In **Store Views**, select which store views to display pop-up.

In **Customer Groups**, choose the customer groups to view pop-up.

In **Start Date**, select a date in the calendar view to begin showing the pop-up.

In **End Date**, select a date in the calendar view to stop displaying the pop-up.

In **Priority**, enter a number to decide the priority of the pop-up when multiple pop-ups are created on a page.

2.3.2. Display Rule

Display Setting

Display Rule * ▼

X equals (%) *
Enter a number here. Ex: 2

Display Animation ▼

Display on Page *
 Catagory Page
 Product Page
 Cart Page
 Checkout Page
 All Other Pages

Exclude Categories
Enter ID of Categories to be excluded from the Display Rule. Example: 3,4,5

Exclude Products
Enter ID of Products to be excluded from the Display Rule. Example: 3,4,5

Position ▼

Auto Close Pop-up After
Enter the amount of time (seconds) for the pop-up to automatically close. Ex: 10. Enter "0" to disable auto close of Pop-up

Display Frequency ▼

In **Display Rule**, choose one of the four following conditions to set condition for displaying the pop-up:

- After customers spend X seconds on page.

- After customers scroll page by X percent.
- After customers view X pages.
- Immediately when customers visit page.

In **X equals**, enter a number to decide the value of X.

In **Display Animation**, choose one of the six following options to set display effects for the pop-up:

- Zoom
- Horizontal Move
- Move from Top
- 3D Unfold
- Zoom-out
- None

In **Display on Page**, select one or multiple pages to show the pop-up.

- Home Page
- Category Page
- Product Page
- Cart Page
- Checkout Page
- All Other Pages

In **Exclude Categories**, enter IDs of categories to be excluded from the Display Rule.
Example: 3,4,5.

In **Exclude Products**, enter IDs of Products to be excluded from the Display Rule.
Example: 3,4,5.

In **Position**, select the position to display the pop-up on page.

- Top Left
- Top Center
- Top Right
- Middle Left
- Middle Center
- Middle Right

In **Auto Close Pop-up After**, enter the amount of time (seconds) for the pop-up to automatically close. Ex: 10. Enter “0” to disable auto close of Pop-up

In **Display Frequency**, determine the frequency of pop-up display by selecting one of the following options:

- When all conditions are satisfied: the pop-up appears if the above rules are executed.
- Only once: the pop-up only appears once.
- Only once per session: the pop-up appears once in a session. If you choose this option, you need to set Cookie Expires.

Display Frequency

Cookie Expires (minutes) *

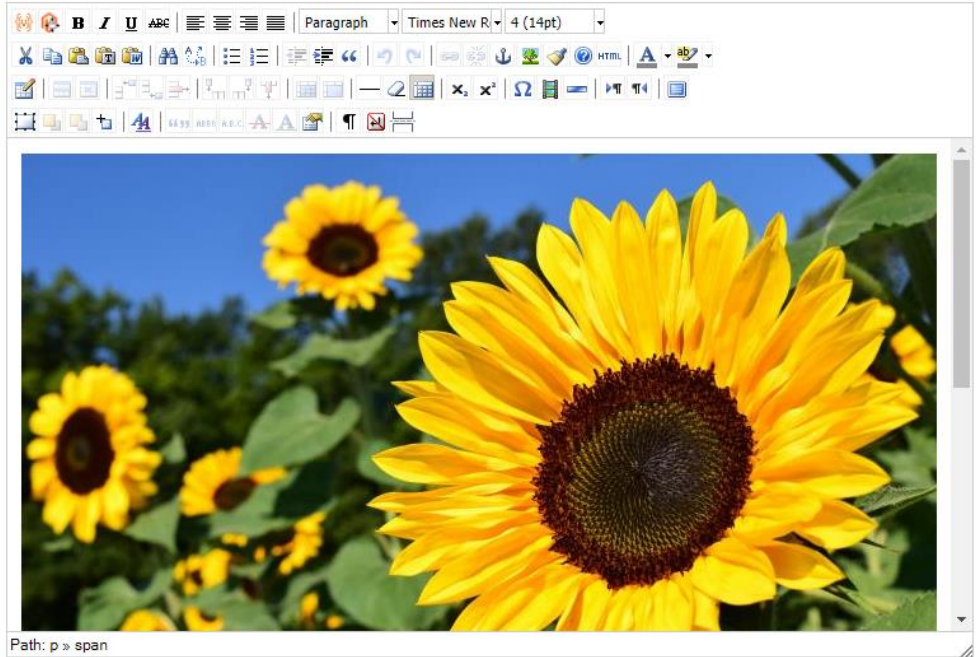

For example, if you choose **Display Frequency** as “Only once per session” and set the 2 minutes for the **Cookie Expires**, the pop-up is displayed when the conditions are satisfied, then won’t be shown in the next 2 minutes (until the session ends or the cookie expires).

- Content and Design

2.3.3. Content and Design

Content and Design

Content * Show / Hide Editor

Path: p » span

Pop-up CSS

CSS change popup design. If blank, default will be used.

In **Content**, use the WYSIWYG editor to create content for the pop-up.

Content * Show / Hide Editor Insert Widget... Insert Image... Insert Variable...

```
<p></p>
<p><span style="font-family: 'times new roman', times; font-size: medium;">The sunflower (Helianthus annuus) is an annual plant in the family Asteraceae, with a large flower head (capitulum). The stem of the flower can grow up to 3 metres tall, with a flower head that can be 30 cm wide. Other types of sunflowers include the California Royal
```

You can use this tool to insert widget, image or video for the pop-up’s content.

In **Pop-up CSS**, use CSS to change the design of the pop-up. If leaving blank, the default pop-up will be applied.
