1. Size Chart for Magento 2 Overview

Magento 2 size Chart extension is an essential tool that helps increase remarkably customer experience. The module allows you to create and assign size chart to product conveniently. Moreover, there are three ways to perform size chart if you use this extension. A size chart can be shown in popup, under Add to Cart button or in product information tab..

2. How Does Size Chart for Magento 2 Work?

2.1. General Configuration

Please go to **Store** → **Configuration** → **BSSCommerce** → **Size Chart**

General Configuration

Enabled [store view] Yes
Version 1.0.0

Default Display [global] In Popup

Link Popup Text [store view] Size Chart

Text Color: [store view] #361cff

Icon [store view] No file chosen
 Delete Image
Allowed file types: jpeg, gif, png.

In **Enabled**: choose Yes to enable the extension, or No to disable it.

In **Default Display**: select an option to set the default performance of size chart, which means that if you don't set the display for a size chart, this size chart will be presented on the frontend as the default one. There are 3 options for you to select:

- **Under Add to Cart Button**: display size chart right on product page, under the Add to Cart Button.

The screenshot shows a product page interface with the following elements:

- Size Selection:** Buttons for XS, S, M, L, and XL.
- Color Selection:** Three color swatches: black, orange, and yellow.
- Quantity:** A text input field containing the number '1'.
- Action Buttons:** A large blue 'Add to Cart' button, and smaller links for 'ADD TO WISH LIST', 'ADD TO COMPARE', and 'EMAIL'.
- Size Chart:** A table titled 'Women's Tops Size Chart' with columns for Size (XS, S, M, L, XL) and rows for Bust (inch), Waist (inch), and Length (inch).
- Callout:** A red box with white text pointing to the 'Add to Cart' button, stating: 'The Size Chart is displayed under the Add to Cart button'.

Size	XS	S	M	L	XL
Bust (inch)	31-32	33-34	34-35	36-37	38-39
Waist (inch)	24-26	26-28	28-30	30-32	32-34
Length (inch)	26.5	27	27.5	28	28.5

- **In Popup:** display size chart in a popup. A popup link will be added to product page then customers can click on this link to view the size chart in popup. You also can edit link text and color without difficulties.

- **On Information Section:** display size chart on a new tab of product information section.

Customize the popup link:

- In **Link Popup Text:** edit text of popup link.
- In **Text Color:** set the color of the popup link.
- In **Icon:** upload the icon of size chart popup link.

After complete settings, please press “**Save Config**” then flush Cache to make these settings come into effect.

Note: Because the scope of the module configuration is store view, you can customize for each store view.

2.2. Size Chart Management

Please go to **Catalog** → **Size Chart** → **Size Chart Management**.

A grid listing all size charts will appear.

Size Chart Management

Search by keyword

Actions per page

<input type="checkbox"/>	ID	Title	Status	Action	Priority
<input type="checkbox"/>	1	Women's Tops Size Chart	Enabled	Edit	
<input type="checkbox"/>	2	Men's Tops Size Chart	Enabled	Edit	

2.2.1. Edit Size Chart

Click “**Add New Size Chart**” button to create a new size chart as you want or click “**Edit**” link on the Action Column to edit available size charts.

Select **Edit Size Chart** tab to customize the size chart.

In **Title**: enter the name of size chart.

In **Enabled**: choose Yes to enable the size chart, or No to disable it.

In **Edit Content**: edit the content of size chart in the WYSIWYG editor.

In **Display**: select the ways to perform the size chart on the product page: **In Popup**, **Under Add to Cart Button** or **On Information Section**. You can select more than one option and the size chart will be shown on product page as all ways you selected.

In **Priority**: enter a number to set sort order for the size chart. Because a product page only can display one size chart so if a product is assigned many size charts, the size chart has top-priority will be shown in the frontend.

In **Overwrite**: The size chart that is ticked to Overwrite will be shown in the frontend and ignored Priority section. After saving, it will be cleared automatically, then you can tick “overwrite” for other size charts. A size chart can be recorded over other size charts that have the same scope.

In **Store View**: choose to enable the size chart for specific store view.

In **Override Product Settings**: In each Product edit page, you can select a size chart (A) for a product. Also, when creating another size chart (B), you can assign it for this product or even a category by using rules. Therefore, this override setting is useful to determine which size chart the product will use to show in the frontend.

After complete all settings, please press “**Save Size Chart**” button to save the customization for size chart.

2.2.2. Assign size chart to products by rule condition

Please press “Assign Products” tab to select condition to apply the size chart to products in size chart edit page.

Men's Tops Size Chart

← Back Delete Size Chart Reset Save and Continue Edit Save Size Chart

EDIT SIZE CHART

Edit Size Chart

Assign Product

Apply the rule only if the following conditions are met (leave blank for all products).

If ALL of these conditions are TRUE :

Category is 16

Please choose a condition to add.

Please choose a condition to add.

Conditions Combination

Product Attribute

- Activity
- Attribute Set
- Category
- Category Gear
- Climate
- Collar
- Color
- Eco Collection

Magento ver. 2.2.0

[Account Activity](#) | [Report an Issue](#)

Click on the (+) icon to explore the condition selection field

In this field, you can choose an option, then easily assign the size chart to multiple products by Categories, Attribute Set, or Product Grid,...

After selecting products, please press **Save Size Chart** button to save your settings.

2.3. Assign a size chart to specific product

Please go to **Catalog** → **Products**, in the product grid, select a product that you want to add size chart to.

This module adds a dropdown attribute displaying all created size charts to product edit page of all products. You can select a size chart option to assign to product then press “**Save**” button to complete.

Joust Duffle Bag

← Back Add Attribute Save

Product Name * [store view] Joust Duffle Bag

SKU * [global] 24-MB01

Price * [global] \$ 34.00
Advanced Pricing
