

Customer Testimonials User Guide

About This Extension:

This extension allows customers to add their testimonial/own view about the store from testimonial page. The admin will check the testimonial submitted by web user and then he/she will decide to publish the view/testimonial on frontend or not. Every store owner is really interested to know what shoppers think about your store, how they appreciate the store services, etc. By placing a testimonials form, you will be able to monitor user's impressions about your store on a daily basis. So, by using reviews from your satisfied customers, you automatically transform your new store visitor to sale.

The extension is easy to install and use. The customer testimonial Extension is lightweight, completes the task with minimum obstruction.

Features:

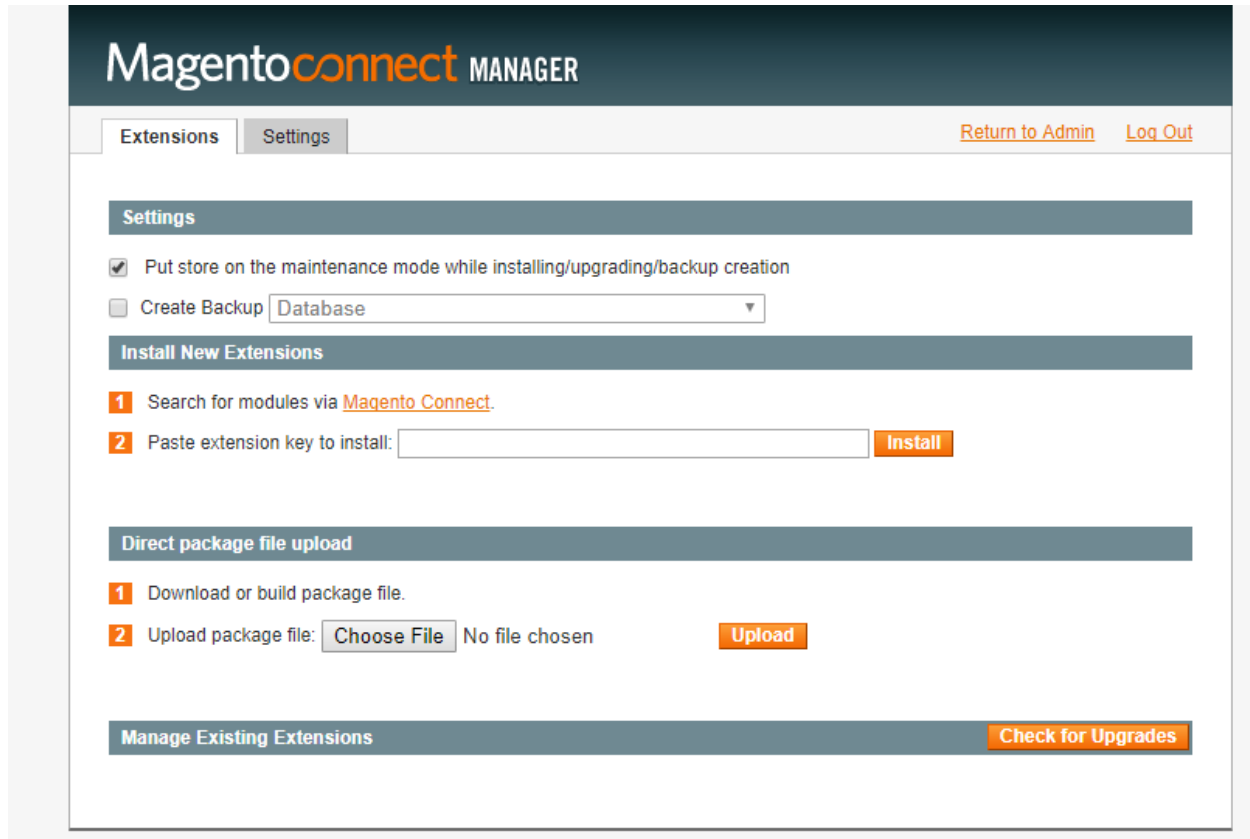

- Allows customers to view testimonial.
- Requires no manual configuration.
- Easy installation.
- Meets Magento programming guidelines.
- 100% open source.

- The testimonial can be viewed by admin during testimonial tab
- Customer can view their testimonial after admin approval on testimonial page
- Improve your store credibility.
- Flexible configuration with different settings of testimonials list and submit form
- Allows to set default testimonial status such as Disabled, Enabled and Awaiting Approval
- Spread customers activity at your store

Installation:

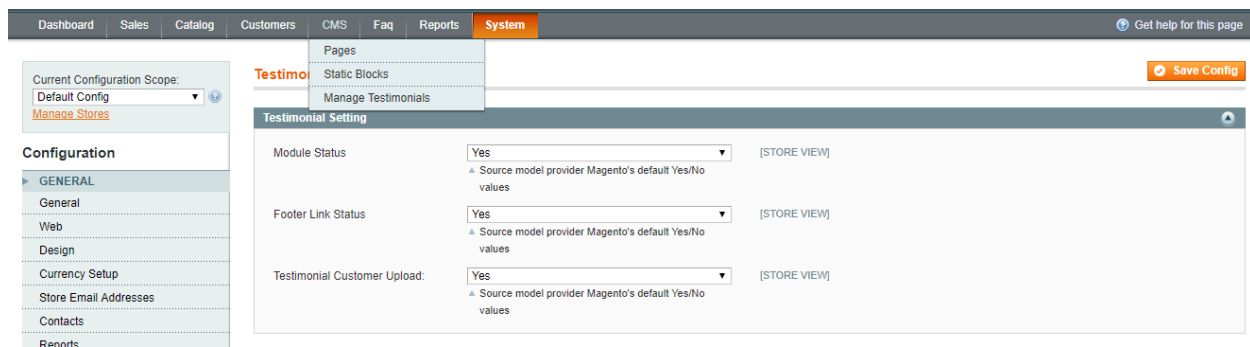

It is recommended creating a backup of your site before installing any new extension, especially if it is a live site. If you are looking to install extension using a product key, you can install this extension through Magento Connect by going into the marketplace and obtaining your product key.

After purchase you can get the key that you need to insert into your Magento Connect area. Then click Install and then Proceed. Next, continue by visiting System-> Magento connect->Magento connect manager in your admin panel. Login with the same credentials you use to access your admin panel.

Magento will show all stages of the process on one screen, and ask you to either enter a license key or upload the extension files. There will be no need to clear cache or create backups- this will be done automatically by Magento connect.

After installation please logout and then login again to use testimonial settings from admin.

Settings from system->configuration->Shree Technologies->testimonials

Customer added testimonial can be managed from cms->Manage Testimonials

To see the all testimonial frontend section: `base_url/testimonials/`

To visit testimonial create page go to URL: `base_url/testimonials/index/new`
