

Manage Customer Attributes

Manage Customer Attributes

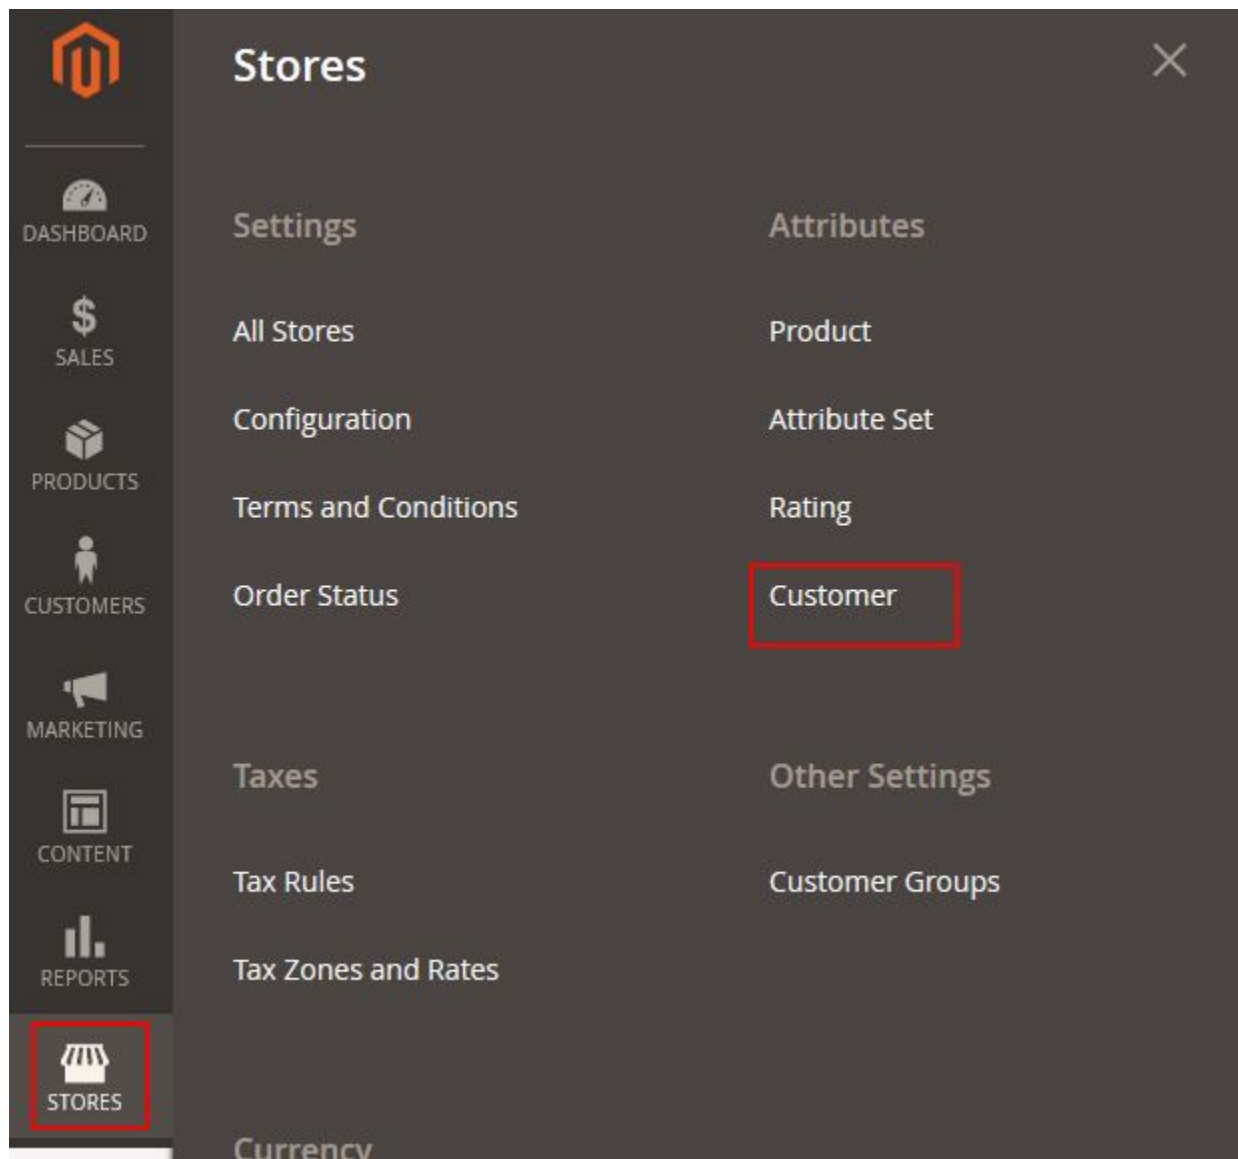

Extension Overview

By using Customer attributes extension we can create additional fields on the customer account create page, customer account edit page and admin manage customers.

So then we can collect business-related and personal information needed from the customers.

Manage Customer Attributes

1. To manage customer attributes go to menu "STORES", go to section "Attributes" and click on "Customer" menu.

2. You can use manage customer attribute grid to add/edit and delete customer attributes.
