

Installation manual

Magento 2 Integration

Installation via the marketplace

Install the CleverReach® Magento integration within a few minutes by going through the following steps:

Step 1: Log into your [Magento marketplace account](#)

Step 2: Open the [CleverReach extension page](#) in your marketplace and hit the “Add to Cart” button

Step 3: Click on the cart icon in the page header and the “Go to Checkout” button

Step 4: Fill out the checkout options and click on “Place Order”

Step 5: To install CleverReach for your Magento shop, log into your Magento 2 Admin Panel

Step 6: Start the Component Manager and click on “Sync”. For detailed help on how to start the Component Manager take a look at this [Magento help page](#).

Step 7: After the Component Manager has finished the synchronization, you can install the CleverReach module by following [Magento tutorial](#)
