

# Multi Wishlist - Installation

Edit this Article (<https://secure.helpscout.net/docs/558fe040e4b01a224b42f30a/article/590339710428634b4a32b248>)

There are two ways to install a Magento Extension:

## Install via Magento Connect

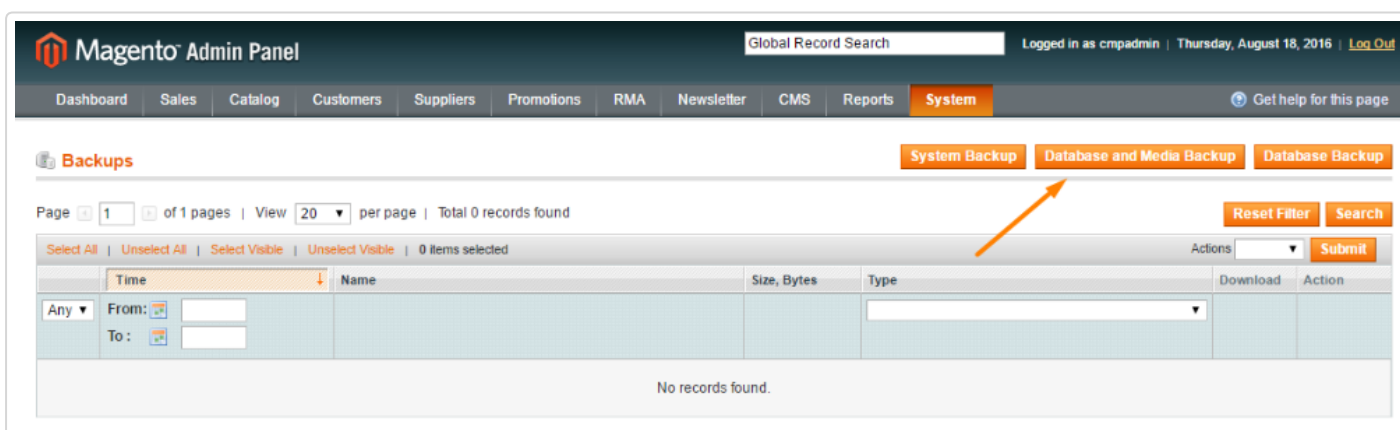

If you are unfamiliar with extensions installation via Magento Connect, please read this article (<https://www.cminds.com/down-to-the-basics-how-to-install-a-magento-extension/>).

## Install Manually

### 1. Data Backup.

Backup your Data to your Magento database and web directory.

In the Magento admin panel, go to *System* → *Tools* → *Backup*.

### 2. Disable Compiler. (If you are running an older version, 1.4 and lower, you can skip this step.)

In the Magento admin panel, go to *System* → *Tools* → *Compilation*. In case "Compiler Status" is "Enabled", click on the "Disable" button.

### 3. Download Extension and Extract Download.

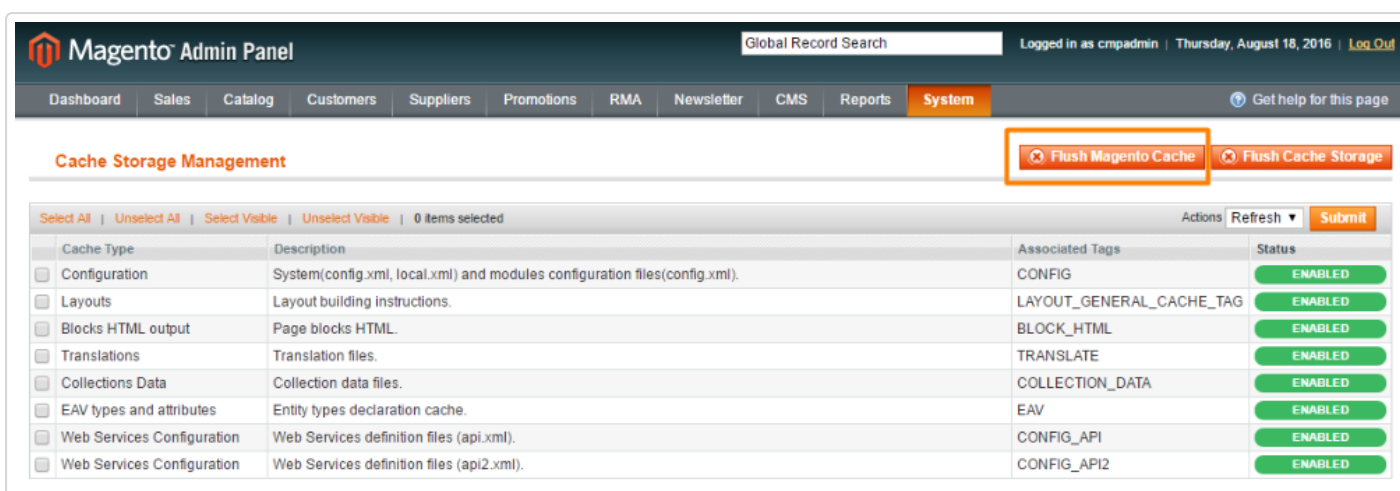

When you download the extension, it will appear as a zip file. Unzip extension contents on your computer and navigate inside the extracted folder.

### 4. Upload Files to Magento Folder.

Upload extension files to the main Magento folder.

### 5. Clear Cache.

In the Magento admin panel, go to *System* → *Cache Management* and press the Flush Magento Cache button.

# Multi Wishlist - Configuration

Edit this Article (<https://secure.helpscout.net/docs/558fe040e4b01a224b42f30a/article/59033b480428634b4a32b258>)

## Configuration

To enable the extension, go to **System** → **Configuration** → **Customers** → **Wishlist** in the Admin Panel.

The screenshot shows the Magento Admin Panel configuration page for the Multi Wishlist extension. The page is titled "Wishlist" and has a "Save Config" button at the top right. The configuration is set for the "Default Config" scope. The "Enable Multi Wishlist" option is set to "Yes" for the "[STORE VIEW]". The "Automatically Fill up required Product Options at adding to Cart from Wishlist" option is also set to "Yes" for the "[STORE VIEW]". A note below this option states: "It's about Bundle Products. During add Bundles items to Cart automatically choose the item with best price (if wasn't configured yet)". The left sidebar shows the navigation menu with "Wishlist" highlighted under the "CUSTOMERS" section.

Ensure that "Enable Multi Wishlist" is set to Yes.

Remember to Click Save Config at the top of the page.
