Adding Images

Suppliers can also add one or more product images on the right side of the form.

To set any picture as the main picture for the product, just click on the house icon and the thumbnail of the selected image will have a green border around it.

Add Product

Product Images (3) Remaining

Select and Upload Image

Selecting categories

The next step is to select the product categories, which is a required operation.

If the product is not assigned to any category, customers will not be able to find it in the store catalog.

It is possible to configure the categories and define which will be visible to specific vendors from the Admin Panel. For more information, please read the Customizing Product Form (<http://creativeminds.helpscoutdocs.com/article/1392-supplier-frontend-m2-customizing-product-form>) article.

The screenshot shows the 'Add Product' form. On the right side, there is a section titled 'Product Images (3) Remaining' with a blue button 'Select and Upload Image'. Below this is a 'Product Categories' section with a list of categories: Women (checked), Men, Accessories (checked), Home & Decor, Sale, and VIP. A 'File' option is also visible at the bottom of the list.

After filling out all required field in the "Add a Product" form, **remember** to click on the **Save Product** button!

Supplier Frontend M2 - Product List

Supplier Product List

On the navigation bar of the Supplier Dashboard there will be the **Product List** link.

ID	Name	Product Type	SKU	Product Price	Qty Available	Status	Actions
2123	Test 123456	Simple	100011-2	\$23.00	12	Not Active	Preview More Options ▾
2122	testing SKU_TEST123-Black rr	Simple	SKU_TEST12-1	\$10.00	0	Approved	Preview More Options ▾ Deactivate Edit Clone
2121	testing SKU_TEST123-Blue rr	Simple	SKU_TEST12-2	\$12.00	15	Pending	Preview More Options ▾
2120	testing SKU_TEST123-Brown rr	Simple	SKU_TEST12-3	\$15.00	20	Pending	Preview More Options ▾
2119	Testing Product 123 rr	Configurable	SKU_TEST12	\$50.00	0	Approved	Preview More Options ▾
2118	testing SKU_TEST123-Black rr	Simple	SKU_TEST123-1	\$10.00	0	Pending	Preview More Options ▾
2117	testing SKU_TEST123-Blue	Simple	SKU_TEST123-2	\$12.00	0	Pending	Preview More Options ▾

On this screen, suppliers can see the list of all their products, their current actual status and quantity available.

New products added to the catalog need to be approved by the admin, so products that present ' *Pending* ' status are still waiting to be approved by the store admin (except when admin set ' *Allow Auto Approval of Products* ' to "Yes" at Configuration (<http://creativeminds.helpscoutdocs.com/article/854-supplier-frontend-m2-configuration>)).

Only the supplier can enter the product page, the rest of the viewers will see a 404 page when they enter the URL.

Suppliers can preview their products in order to see how they will be displayed on the store. After clicking on ' *Preview* ' the product page will be shown in a new window.

Supplier Frontend M2 - Customizing Product Form

Customizing Product Form

The Product Form can be freely customized in the Admin Panel and you will be able to:

- Add new elements to the supplier form
- Change labels of the existing inputs
- Select available categories for the form

Add new elements to the supplier form

New form elements are based on the product attributes, so if you want to add new fields, you must define new product attributes at *Stores* → *Attributes* → *Product*.

Adding a new attribute

New Product Attribute

← Back Reset Save and Continue Edit Save Attribute

ATTRIBUTE INFORMATION

- Properties
- Manage Labels
- Storefront Properties

Attribute Properties

Default Label

Catalog Input Type for Store Owner

Values Required

Visible for Supplier

Advanced Attribute Properties

Attribute Code
This is used internally. Make sure you don't use spaces or more than 30 symbols.

Scope
Declare attribute value saving scope.

Default Value

Unique Value
Not shared with other products.

Input Validation for Store Owner

Add to Column Options
Select "Yes" to add this attribute to the list of column options in the product grid.

Use in Filter Options
Select "Yes" to add this attribute to the list of filter options in the product grid.

Attributes include the following input types:

- Text Field
- Text Area
- Date
- Yes/No
- Multiple Select
- Dropdown
- Price
- Media Image
- Fixed Product Tax
- Visual Swatch
- Text Swatch

Managing Attribute Sets

After creating an attribute, you must assign it to an attribute set on *Stores* → *Attributes* → *Attribute Set*.

If you want to add new attributes to an attribute set or group, just drag and drop the desired attribute from the right column, "Unassigned attribute", to the suitable group on the left column.

Remember to save your changes and a new attribute is added on the form!

Change labels of the existing inputs

There are two ways to change the attribute labels on the supplier frontend form. You can change the labels for the entire store view, or you can define a label to be displayed only on the supplier frontend form. Both changes can be made in same place.

First, navigate to **Stores** → **Attributes** → **Product** and choose an attribute.

Next, go to the section titled **Manage Label / Manage Titles** and type your name in the field titled **Default Store View**.

After saving, the attribute label changes.

Special Price To:

QTY Available *:

Weight Changes Label *:

[Save Product](#)

Select available categories for the form

The admin can define which categories will be listed in the product form in the supplier control panel.

Under **Products** → **Categories**, the store admin is able to select which categories are available for the suppliers.

After selecting the desired category, go to General tab and on the field 'Available for Supplier?' select "Yes" to make the category visible in the supplier form or "No" to disable it.

Supplier Frontend M2 - Including YouTube video for Product

Including YouTube Video for a Product

It is becoming more and more common for online stores to showcase products with video descriptions. With the Supplier Frontend Product Management extension (<https://www.cminds.com/magento-extensions/supplier-products-and-inventory-management-extension-for-magento-2-by-creativeminds/#description>) for Magento 2@ we have made this a simple step in the process of adding a new product.

Configuration (Admin Side)

In the Admin panel navigate to **Stores** → **Settings** → **Configuration** → **Supplier Product Uploader** → **Product Settings**

Under "General", ensure that "Allow Supplier To Upload Video" is set to Yes.

Save Config.

The screenshot shows the Magento Admin configuration interface. At the top right, there is a red "Save Config" button with an orange arrow pointing to it. On the left sidebar, the "SUPPLIER PRODUCT UPLOADER" menu is expanded, with an orange arrow pointing to the "Product Settings" sub-menu. The main content area is titled "General" and contains several configuration options:

- Products Attribute Set**: dropdown menu set to "supplierfrontendproductuploader_product_attribut".
- Allowed Products Types**: a list box containing "Configurable", "Downloadable", "Grouped", and "Virtual".
- Allow Supplier To Upload Images**: dropdown menu set to "Yes".
- Maximum Allowed Images Count**: text input field containing "1".
- Allow Supplier To Upload Video**: dropdown menu set to "Yes", with an orange arrow pointing to it.

Adding a YouTube video to a new Product

In the Supplier Panel Navigate to **Add a Product** in the menu bar.

Select the "Attribute Set" and "Product Type" you would like to create and click "Continue"
