

IMPORT/EXPORT CMS PAGES FOR MAGENTO 2

User Guide

Important Notice

CommerceExtensions reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice.

Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to CommerceExtensions terms and conditions of sale supplied at the time of order acknowledgment.

CommerceExtensions warrants performance of its products to the specifications applicable at the time of sale in accordance with CommerceExtensions standard warranty. Testing and other quality control techniques are used to the extent CommerceExtensions deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

CommerceExtensions assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using CommerceExtensions components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

CommerceExtensions does not warrant or represent that any license, either express or implied, is granted under any CommerceExtensions patent right, copyright, mask work right, or other CommerceExtensions intellectual property rights relating to any combination, machine, or process in which CommerceExtensions products or services are used. Information published by CommerceExtensions regarding third-party products or services does not constitute a license from CommerceExtensions to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from CommerceExtensions under the patents or other intellectual property of CommerceExtensions.

Resale of CommerceExtensions products or services with statements different from or beyond the parameters stated by CommerceExtensions for that product or service voids all express and any implied warranties for the associated CommerceExtensions product or service and is an unfair and deceptive business practice. CommerceExtensions is not responsible or liable for any such statements.

All company and brand products and service names are trademarks or registered trademarks of their respective holders.

Extension Overview

Build for magento 2 this extension allows you to import and export your cms pages data such as page title / meta description / if cms page is approved or not / url_key / date created / content_heading / cms content / layout type all cms options etc). See Screenshot of example import_bulk_cms_pages.csv for a more details. This extension will import/export data in CSV format.

FEATURES:

- Import/Export CMS pages and all related data
- Great for transferring CMS pages from an old magento site to a new site
- Works great on all version of community edition as well as all versions of Enterprise Edition.

Extension Installation

1. Log out from Magento Admin panel if you are logged in
2. Unpack the contents of the zip file purchased and VIA ftp and upload the app folder to your magento install root.
3. Log into Magento Admin Panel
4. Clear cache using command `php -f bin/magento cache:flush`
5. After uncompressing the cms pages import/export package, you should have one folder: app

Upload everything in the app/* folder to your app/* folder. Then go to app/etc/modules

6. SSH into your magento server and run command via ssh in root of magento install to install module

```
php -f bin/magento setup:upgrade
```

and

```
php -d memory_limit=1024M -f bin/magento setup:di:compile
```

Extension Usage

1. **DO NOT** – Edit the CSV in excel it strips format and breaks import. I recommend using openoffice.org calc and saving in utf-8 format.
2. Overall the extension is very straight forward. You can find in magento admin under

system -> import/export CMS Pages

and you can run the export to get a sample csv of cms pages already in your site and then you just upload via the browse button and click the import cms pages button and it will import it into the system.

3. NOTE THE following fields and value settings for them

created_at = the date the review was "added" can be blank for current date/time at import

page_title = this is the cms page title

url_key = this is the url for the cms page

storeview = these are the store ids. all values are comma delimited if only 1 value just put value

status = this is either Enabled or Disabled

content_heading = this is cms page content heading

content = actual cms page content

layout = type of layout can be one_column / two_columns etc

meta_keyword = cms page meta keywords

meta_description = cms page meta description

layout_update_xml = magento XML for layout

custom_theme = this can be default/default or default/custom etc depending on the themes you have in your install

custom_root_template = type of layout can be one_column / two_columns etc

custom_layout_update_xml = magento XML for layout

custom_theme_from = date format 10/11/2010

custom_theme_to = date format 10/11/2010

sort_order = sort order for cms pages
