# 1. Extension Installation Guide

**Step 1:** First download the product ( **Magento 2 ConfigWise AR Widget** ) from store in zip format.

**Step 2:** Use the FTP client to upload or copy to extension in your Magento root folder.

Note: Do not overwrite any existing files, just add a new file to the folder structure.

**Step 3:** Open the command line (connect ssh) and go to the Magento root directory then execute one by one below commands.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy -f
- php bin/magento indexer:reindex
- .php bin/magento cache:clean
- .php bin/magento cache:flush
- chmod -R 777 var/ pub/ generated/

**Step 4:** Now, open Magento 2 Admin and Go **Store > Configuration**, you will able to view tab in **CONFIGWISE-> ConfigWise AR Widget** section and now showing ConfigWise settinggroup show mean extension installed properly and ready to use.

**Step 5:** If you need professional help regarding Magento 2 Extension installation contact us.

Note: To implement all change on storefront, store admin need to flush each time after all setting and configuration done.

## 2. System Configuration

1. Go to ConfigWise.io website and register and confirm for a Free account.
2. After confirming the account login into the dashboard:  
<https://dashboard.configwise.io/integration/home>
3. Go to Integration -> Javascript

dashboard.configwise.io/integration/home

✓ Your Javascript code is up and running

### Integration Javascript

**Step 1: Code integration**

To start using our AR Web Canvas on your website copy the Javascript shown on this page onto your website. Once this code has been implemented you can start adding 3D AR content to your website.

```
<div style="height: 400px; width: 600px;"><script type="text/javascript" src="https://ar.configwise.io/configwise/canvas/web-viewer.js?product_id=CONFIGWISE_TEST_EXAMPLE_CHAIR&channel_id=test&domain=test&company_reference_number=test"></script></div>
```

1. 2. 3.

4. Use the channel\_id(1), domain(2) and company\_reference\_number(3) to configure in the Magento->Stores-> Configuration->ConfigWise->AR Widget settings as depicted in the picture below.

← → C dashboard.configwise.io/integration/home

**Step 1: Code Integration**

To start using our AR Web Canvas on your website copy the Javascript shown on this page onto your website. Once this code has been implemented you can start adding 3D AR content to your website.

```
<div style="height: 400px; width: 600px;"><script type="text/javascript" src="https://ar.configwise.io/configwise/canvas/web-viewer.js?product_id=CONFIGWISE_TEST_EXAMPLE_CHAIR&channel_id=test&domain=test&company_reference_number=test"></script></div>
```

5. Configure the Product attribute (e.g. SKU) in the **'Select Product id'** field.
6. Save settings.
7. Go to Content -> Widgets -> Add Widget

### Widgets

- a.
8. Select the appropriate theme and then press 'continue'.
9. Create a widget title in the 'Widget title' field. For example: ConfigWise AR Widget

10. Choose the store views for example 'All Store Views'
11. Add a layout by pressing pressing 'Add Layout Update'
12. Choose 'Display on' and then 'Simple Product'
13. Select the container for example 'Main Content Top'.

### Layout Updates

Display on		Simple Product	▼
Products	Container		
<input checked="" type="radio"/> All <input type="radio"/> Specific Products	Main Content Top	▼	T P

[Add Layout Update](#)

a.

14. Now let's update product SKU (to test the AR Widget). Go to Catalog->Products.
15. Choose any product and click Edit.
16. Change the SKU to CONFIGWISE\_TEST\_EXAMPLE\_CHAIR
17. Flush the cache and then browse to the page.
18. If settings are correctly filled in then the following page should be displayed:

a.
