

Magento 1 Cart Exception extension User Guide

Cart Exception extension allows to select items that will not be included in the minimum purchase amount. For example, the minimum order amount is set to 50€. The customer adds two items to his cart. **Item A** costs 40€ while **Item B** costs 20€. This means that the order amount of 60€ exceeds the minimum order amount and the customer can carry on to the checkout. This extension allows to set, for example, the **Item B** not to be included in the minimum order amount. This way the customer will not be able to continue to the checkout despite the fact that the order amount is more than 50€.

There is also a possibility to list the items, that can be checked out, even if they don't go over the minimum amount.

Setting the minimum order amount

Admin → System → Configuration → Sales → Sales

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation bar with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System. The System tab is selected. Below the navigation bar, there are two important messages: one about Formkey validation on checkout being disabled, and another about Magento Open Source 2.2.4 enabling better shopping experiences. The main content area is divided into two columns. The left column contains a 'Configuration' sidebar with a 'Current Configuration Scope' dropdown set to 'Default Config' and a 'Manage Stores' link. Below this, there is a 'Configuration' section with a 'GENERAL' sub-section expanded, showing a list of configuration options: General, Web, Design, Currency Setup, Store Email Addresses, Contacts, Reports, and Content Management. The right column shows a 'General' section with a list of configuration options: Countries Options, States Options, Locale Options, and Store Information. Below this, there is a 'SALES' section with a 'Sales' sub-section expanded, showing a list of configuration options: Sales Emails, PDF Print-outs, Tax, Checkout, Shipping Settings, Shipping Methods, Google API, Payment Methods, Payment Services, and Moneybookers. The 'Sales' sub-section in the left sidebar and the 'Sales' sub-section in the right sidebar are both highlighted with a red box.

In “Minimum Order Amount” tab, enable the minimum order amount and set it to the desired amount.

Sales

General	
Checkout Totals Sort Order
