1. Photo Gallery Overview

Photo Gallery is a Magento 2 extension for creation unlimited galleries for pictures or photos in an instant.

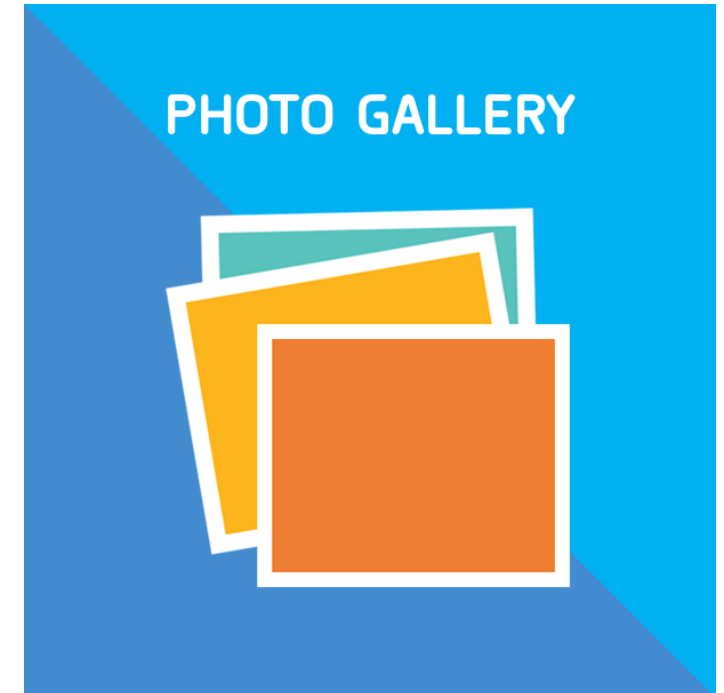

This extension allows you to target each gallery to any page or group of pages on the fly using native Magento Widgets with no coding. You can easily customize content of a gallery, use tags for filtering photos, choose quantity of photos and select how to display them.

1. Photo Gallery Overview

Photo Gallery requires only three steps to set up your photos to be shown on your store front:

1. Go to Content->Photos and Upload one or many images
2. Go to Content->Galleries, create a new gallery and assign those images to the gallery
3. Go to Content->Widget, create new widget and select its type as Photo Gallery. Then customize it to display the gallery and target the widget to pages you like

2. How does Photo Gallery work?

MANAGE IMAGES

- **Add Images** via Drag and Drop or Click button “Upload”
- **Multi – upload** is available for all images types
- After images are uploaded in browser click “Save” button

The screenshot shows a web application interface for managing photos. On the left is a vertical sidebar with icons for various sections: Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled "Upload New Photo" and includes a search icon, a user profile "admin", and a "Save" button. Below the title, there is a list of four uploaded photos: "Lighthouse.jpg", "Koala.jpg", "Jellyfish.jpg", and "Tulips.jpg", each with a trash icon. A large box with a document icon and the text "Click here or drag and drop to add files." is positioned below the photo list.

2. How does Photo Gallery work?

MANAGE IMAGES

- To provide each image with extra information open it from the Photos grid
- Fill in the required information and click button “Save Photo”

The screenshot displays the 'Edit Photo' page in a web application. On the left is a vertical sidebar with icons and labels for various dashboard sections: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Edit Photo' and includes a search icon and a user profile 'admin'. Below the title is a horizontal bar with navigation buttons: 'Back', 'Delete Photo', 'Reset', 'Save and Continue Edit', and a prominent orange 'Save Photo' button. The form contains several fields: a toggle for 'Enable Photo in Gallery' (set to 'Yes'), a 'Photo Title' field with the value 'garage-hanging-mechanic-162553.jpg', a 'Description' text area, a 'Sort Order' field with the value '0', a 'Tags' dropdown menu with a 'New Tag' button, and a 'Galleries' dropdown menu. On the right side, there is a 'Photo' preview showing a building interior, with its dimensions '2000x1333' and size '1 MB' listed below it.

STOREFRONT PROPERTIES

The screenshot displays the Magento Admin interface for configuring a widget. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Widgets' and includes a search icon and a user profile 'admin'. Below the title bar are navigation buttons: 'Back', 'Reset' (with a tooltip), 'Save and Continue Edit', and a red 'Save' button. The 'WIDGET' section on the left lists 'Storefront Properties' and 'Widget Options'. The 'Storefront Properties' configuration includes:

- Type:** Photo Gallery (dropdown)
- Design Package/Theme:** Magento Luma (dropdown)
- Widget Title ***: An empty text input field.
- Assign to Store Views ***: A dropdown menu showing 'All Store Views', 'Main Website', 'Main Website Store', 'German Store View', and 'Default Store View'. A question mark icon is visible next to the dropdown.
- Sort Order:** An empty text input field with the tooltip 'Sort Order of widget instances in the same container'.

2. How does Photo Gallery work?

1. Use widgets to display a gallery on the front

- Create Title for the widget
- Photos on page limit – limit of photos of the gallery preview block on store front
- Photos in slider limit – limit of photos displayed while navigating the gallery on store front

Manage Widgets

WIDGET OPTIONS

- Select which gallery you want to display in the widget
- Select tags – choose tags to filter which photos are included in the gallery to display
- Show Photo Title –to hide or display photos Title on the store front
- Show Photo Description –to hide or display photos Description on the store front

The screenshot displays the 'Widget Options' configuration page in the Decima Digital admin interface. The page is titled 'Widget Options' and is part of a 'WIDGET' management section. The interface includes a sidebar with navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area shows the following settings:

- Enable Widget:** Yes (dropdown)
- Title:** (text input field)
- Photos on page limit:** 5 (text input field)
- Photos in slider limit:** 10 (text input field)
- Select Gallery:** Please Select Gallery (dropdown menu) with a sub-label 'Display Photos form Gallery'.
- Show Tags:** Select... (dropdown menu)
- Show Photo Title:** Yes (dropdown)
- Show Photo Description:** Yes (dropdown)

At the top right of the configuration area, there are navigation buttons: Back, Reset, Save and Continue Edit, and a prominent Save button.

NOTE: Clear cache every time to ensure that fronted is changed
