

# Payment Extension for Magento 2

# USER GUIDE

## 1. Installation

Before you are installing the module in your live store, **it is very recommended to install the module in a test version of your store**, in order to make sure the module works correctly and you can safely install the module in you live store.

### 1.1 How to install

There are two ways of installing extension via Web Setup Wizard or Composer.

#### 1.1.1 Installation via Web Setup Wizard

To install the Direct Pay Online extension, you will need to access your admin dashboard and navigate to System > Web Setup Wizard.

For more information, follow the regular Magento 2 extension installation procedure. Follow the official guide here: [installing-extensions](#)

#### 1.1.2 Installation via Composer

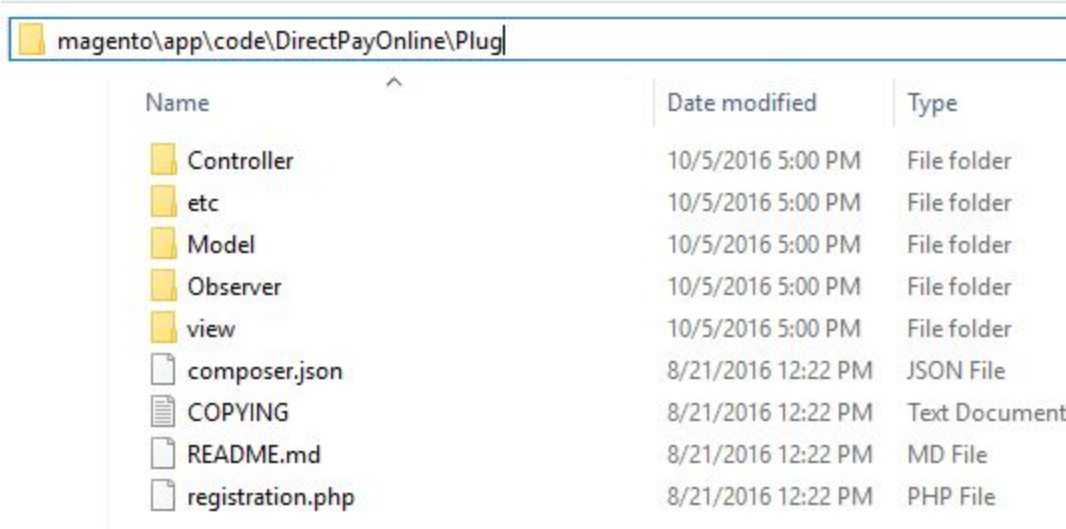

Before installing Direct Pay Online extension, make sure you have composer installed. To download composer follow the official guide here: [Install Composer](#)

First, download Direct Pay Online extension zip file from your Magento Marketplace account.

After, into app folder in the root directory of Magento, create the following directory: code/DirectPayOnline/Plug.

Into Plug folder unzip **directpayonline-plug-1.0.2.zip**

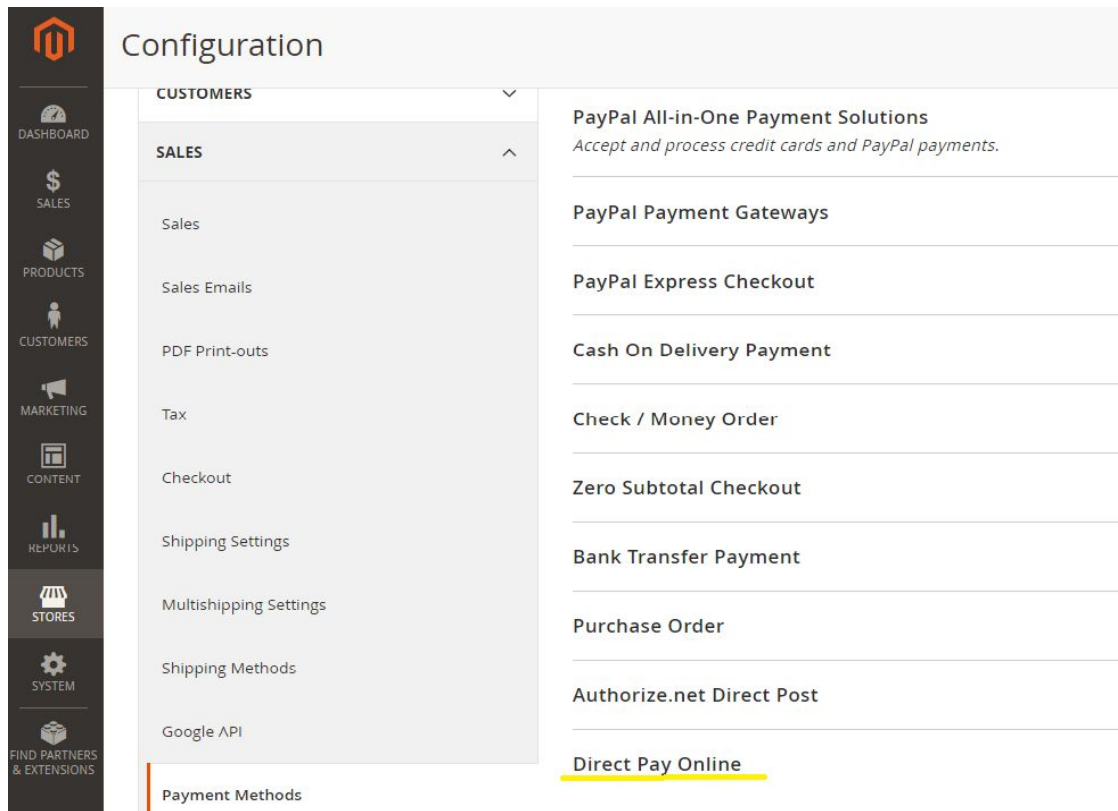

Name	Date modified	Type
Controller	10/5/2016 5:00 PM	File folder
etc	10/5/2016 5:00 PM	File folder
Model	10/5/2016 5:00 PM	File folder
Observer	10/5/2016 5:00 PM	File folder
view	10/5/2016 5:00 PM	File folder
composer.json	8/21/2016 12:22 PM	JSON File
COPYING	8/21/2016 12:22 PM	Text Document
README.md	8/21/2016 12:22 PM	MD File
registration.php	8/21/2016 12:22 PM	PHP File

In SSH , from your site root run the following commands:

```
\magento>php bin/magento module:enable -c DirectPayOnline_Plug
\magento>php bin/magento setup:upgrade
```

After, refresh the page, if you see that the font and images are not shown correctly, then run **php bin/magento setup:static-content:deploy**. The command run from 1 to 3 minutes and installing all content from view folder.

After the installation go to your Magento Admin panel > Store > Configuration > Sales > Payment Methods, if Direct Pay Online appears then the module installed successfully.

The screenshot shows the Magento Admin Configuration page. The left sidebar contains navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled "Configuration" and has a dropdown menu with "CUSTOMERS" and "SALES" options. The "SALES" menu is expanded, showing a list of configuration sections: Sales, Sales Emails, PDF Print-outs, Tax, Checkout, Shipping Settings, Multishipping Settings, Shipping Methods, Google API, and Payment Methods. The "Payment Methods" section is highlighted with an orange bar. The right-hand pane displays the configuration for "Payment Methods", listing several payment methods: PayPal All-in-One Payment Solutions, PayPal Payment Gateways, PayPal Express Checkout, Cash On Delivery Payment, Check / Money Order, Zero Subtotal Checkout, Bank Transfer Payment, Purchase Order, Authorize.net Direct Post, and Direct Pay Online. The "Direct Pay Online" option is highlighted with a yellow underline.

## **2. How to use**

In order to use the Direct Pay Online free extension, the merchant will be required to have an online account with Direct Pay Online. For existing customers which having their LIVE account, the process is simple and they will be required to prepare the following details:

Account token, Account service types and Products / services / prices.
