

Instagram slider For Magento2

Instagram slider

The Instagram slider extension will fetch the Images from the user's Instagram profile and will show them to the Magneto store like below screenshot.

Instagram slider Options and Setting

Stores >> Configuration >> Dotsquares Extension >> Instagram slider >> Enable >> Yes (Add User id and Access token)

The screenshot shows the 'Instagram Slider Options' configuration page. The options are as follows:

- Enable** (store view): Yes
- Display on Homepage** (store view): No
- Title** (store view): [Empty field]
- User Id** (store view): [Empty field]
- Access Token** (store view): [Empty field]
- No Of Items** (store view): 0

At the bottom, the code to be added to the CMS page is:

```

{{block class="Dotsquares\Instagramslider\Block\Items"
template="Dotsquares_Instagramslider::Instagram/Instagramslider.phtml"}}

```

After installation, if “Display on Homepage” is Yes then its display on home page. to display Instagram slider on other cms page, paste the below line of code in any cms page (like Category, about us) content :

```

{{block class="Dotsquares\Instagramslider\Block\Items"
template="Dotsquares_Instagramslider::Instagram/Instagramslider.phtml"}}

```

In order to add an Instagram slider to the website, the user needs to generate an access token. Please go to the below URL for a guide on how to generate access token?

<https://www.instagram.com/developer/authentication/>

After creating access token replace the ACCESS-TOKEN in written in below link to get the User ID

https://api.instagram.com/v1/users/self/media/recent/?access_token=ACCESS-TOKEN

```
