## 1. INSTALLATION

For all types of installations you need to install Composer first from:

<https://getcomposer.org/download/>

Where you can find our modules:

1. **Magento Marketplace:**

<https://marketplace.magento.com/developer/EaDesign>

2. **Our site:** [www.eadesign.ro](http://www.eadesign.ro)

3. **GitHub:** <https://github.com/EaDesgin>

4. **Packagist:** <https://packagist.org/packages/eadesignro/>

**See our Installation Manual Guide for detailed information.**

Note: For any bug reports, please report these here via [mdevel@eadesign.ro](mailto:mdevel@eadesign.ro)

# Reference Manual

## 2. SET UP IN MAGENTO

After the install you need to go to the System-> Configuration area in Magento to enable the module.

**See our User Manual Guide for more details**

Note: For any bug reports, please report these here via [mdevel@eadesign.ro](mailto:mdevel@eadesign.ro)

# Reference Manual

## 3. HOW TO USE

Using EaDesign **Mobile Detect System** you can make the design for mobile more clean and organized because for mobile you'll need another theme. When you enter on mobile device, the system will change your theme for mobile.

**See our User Manual Guide for more details.**

Note: For any bug reports, please report these here via [mdevel@eadesign.ro](mailto:mdevel@eadesign.ro)
