

Single Page Products Manager User Guide

Version 2.1.4

Introduction

Single Page Products Manager extends the standard products grid in order to update any product information on the single page. You can update products doing less clicks and in a much faster way. There is no need to load a heavy product editor page with a large number of various sections and fields. Editing of each product section becomes accessible as a separate action in the grid. Just select a product action, correct needed attributes or related information and save the data. Inline editing of grid attributes including multiple rows editing is enabled as well. As a result product editing becomes more convenient and takes less time.

The distinctive feature of the module is that you can edit any product information (except **Attribute Set** attribute). Related products, tier prices, advanced inventory, reviews, images, custom options, websites, configurations, etc can be edited along with EAV attributes.

Features

1. Edit any product section in a separate fast loaded pop-up instead of loading the whole product in a new window.
2. Any custom attribute group is available for editing as an action.
3. Respects attributes positioning. You can move attributes from one attributes group to another on your own and the module handles it correctly.
4. Supports all built-in product types
5. Multiple inline products editing

Products

Products manager is a standard Magento feature that Single Page Products Manager extends. On the admin menu, select **Products** → **Catalog**. You can manage the list of products here.

Once the module is installed, you can see **Edit** action replaced with the action menu.

The sporty Joust Duffle Bag can't be beat - not in the gym, not on the luggage carousel, not anywhere. Big enough to haul a basketball or soccer ball and some sneakers with plenty of room to spare, it's ideal for athletes with places to go.

- Dual top handles.
- Adjustable shoulder strap.
- Full-length zipper.
- L 29" x W 13" x H 11".

Path: p

You can create custom attributes groups or change existing ones for an attribute set with a standard Magento feature: **Stores** → **Attributes** → **Attribute Sets**. Each attribute can be moved inside a group or a group can be changed. The module handles all custom attributes groups with any given attributes in them.

In addition to the attributes groups sections a number of custom sections are defined for a product like: **Advanced Inventory**, **Custom Options**, etc.

The screenshot displays the Magento Admin interface for editing a product named "Joust Duffle Bag". On the left is a vertical sidebar with navigation icons and labels: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled "Joust Duffle Bag" with a close button (X) in the top right corner. Below the title is a header bar with "Cancel", "Reload", and "Save" buttons. The "Advanced Inventory" section is expanded, showing several configuration options:

- Manage Stock** [global]: A dropdown menu currently set to "Yes".
- ☒ **Use Config Settings**
- Qty** [global]: A text input field containing the value "100".
- Out-of-Stock Threshold** [global]: A text input field containing the value "0".
- ☒ **Use Config Settings**
- Minimum Qty Allowed in Shopping Cart** [global]: A text input field containing the value "1".
- ☒ **Use Config Settings**
- Maximum Qty Allowed in Shopping Cart** [global]: A text input field containing the value "10000".
- ☒ **Use Config Settings**
- Qty Uses Decimals** [global]: A dropdown menu currently set to "No".
- Allow Multiple Boxes for Shipping** [global]: A dropdown menu currently set to "No".

Grouped Products

A grouped product is made up of multiple, standalone products that are presented as a group. You can offer variations of a single product, or group them by season or theme to create a coordinated set. Each product can be purchased separately, or as part of the group.

Add Products to Group

1 of 1

	ID	Thumbnail	Name	Attribute Set	Status	SKU	Price	Default Quantity	Actions
	33		Sprite Yoga Strap 6 foot	Sprite Yoga Strap	Enabled	24-WG085	\$14.00	0.0000	Remove
	34		Sprite Yoga Strap 8 foot	Sprite Yoga Strap	Enabled	24-WG086	\$17.00	0.0000	Remove
	35		Sprite Yoga Strap 10 foot	Sprite Yoga Strap	Enabled	24-WG087	\$21.00	0.0000	Remove

The next feature is not unique but it is very important, too. Inline editing is enabled for the products grid similarly to how its done for CMS pages for example.
