## **Introduction**

B2B Forced Login extension for Magento 2 forces customers to first login or create an account before seeing any products or CMS pages. There are two ways to access the web store when the forced login is enabled:

- 1) Login or Register: You can either login with an existing account or create a new account
- 2) Login only: You can only login and can't create a new account.

## **Compatibility**

- This extension is compatible with the default Magento 2.0 Luma theme.
- This extension is compatible with Magento versions 2.0.x - 2.1.x

## Installation

Download the extension package from your account and extract the downloaded archive.

Create the folder `app/code/Ecomwise/ForcedLogin/` in your Magento root.

Copy the extracted content to the `app/code/Ecomwise/ForcedLogin/` directory.

Positioned in the root Magento directory execute the following commands:

1. Install: `php bin/magento setup:upgrade`
2. Recompile (Optional): `php bin/magento setup:di:compile`
3. Reindex (Optional): `php bin/magento indexer:reindex`
4. Clear the Magento cache (Optional): `php bin/magento cache:clean`

## Configuration

Stores-> Configuration -> Ecomwise -> B2B Forced Login

**1. Info & Support:** An overview of the extension information such as version number, compatibility, documentation and support.
