

Advanced Product Zoom

Version: 1.0.0

Overview

Advance Product Magnifier extension enables customers to magnify product images with just a mouse-over. It allows customers to view the product image more closely in the image box. Thus, the magnified product image doesn't hide other product details such as product price, size options, add to cart option, etc. The extension also allows store owners to display multiple product images in the form of a slider underneath the main product image. Thus, the store owners can use this extension to delight their customers with high-quality magnified product images or multiple product images and encourage them to buy products. This way, the store owners can generate more leads and lift product sales.

The Purpose

The team of Advance Product Magnifier extension is focused on delivering a beneficial solution for both the customers and the store owners. Using this extension, the customers can see the product image more closely and store owners can encourage customers to buy products.

Installation Steps

First of all, you need FTP/SSH access and then follow these steps to complete the

Unpack the Downloaded (ZIP) Package File

Step 1

Upload Eecom folder to the **app/code** folder of Magento® 2 Installation.

Step 2

Run Upgrade Setup by running this command:

bin/magento setup:upgrade

```
C:\Windows\system32\cmd.exe
Microsoft Windows [Version 6.1.7600]
Copyright (c) 2009 Microsoft Corporation. All rights reserved.

C:\Users\ismoipwr>cd
C:\Users\ismoipwr
C:\Users\ismoipwr>cd ../../..
C:\>cd xampp
C:\xampp>cd htdocs
C:\xampp\htdocs>cd mg2
C:\xampp\htdocs\mg2>php bin/magento setup:upgrade
```

Step 3

Enable the Module by running this command:

```
bin/magento module:enable  
Eecom_Productzoom
```

Step 4

Recompile (incase you have compilation enabled) by running this command:

```
bin/magento setup:di:compile
```

Step 5

Update from the composer for already installed version by running this command:

```
composer update eecom/Productzoom
```

Step 6

For Re-indexing run this command:

```
bin/magento indexer:reindex
```

```
C:\Windows\system32\cmd.exe

C:\xampp\htdocs\mg2\bin>php magento indexer:reindex
Customer Grid index has been rebuilt successfully in 00:00:03
Category Products index has been rebuilt successfully in 00:00:00
Product Categories index has been rebuilt successfully in 00:00:01
Product Price index has been rebuilt successfully in 00:00:07
Product EAV index has been rebuilt successfully in 00:00:04
Stock index has been rebuilt successfully in 00:00:03
Catalog Search index has been rebuilt successfully in 00:00:09
Catalog Rule Product index has been rebuilt successfully in 00:00:05
Catalog Product Rule index has been rebuilt successfully in 00:00:04

C:\xampp\htdocs\mg2\bin>
```

Extension Configuration

1. Enable/Disable the extension from the Admin

Enable/Disable the extension by just opting for “Yes” to enable the products labels and “No” to disable the product zoom functionality.

The screenshot shows the Magento Admin Configuration page for the Product Zoom extension. The left sidebar contains navigation options: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and PRODUCT Q/A. The main content area is titled 'Configuration' and shows the 'Product Zoom' extension selected in the left sidebar. The configuration is set to 'General Settings'. The 'Use Product Zoom' dropdown is set to 'Yes'. The 'Zoom Pointer Height' and 'Zoom Pointer Width' input fields are both set to '100'. Red arrows point from the 'Product Zoom' extension name in the sidebar to the 'Use Product Zoom' dropdown, and from the 'Zoom Pointer Height' and 'Zoom Pointer Width' input fields to their respective labels. A red text box at the top right of the configuration area says 'Select "Yes" to Enable and "No" to Product Zoom Functionality'.

2. Easily Enable/Disable Product Zoom functionality

It allows Magento store admin to easily Enable and Disable the Product Zoom functionality from backend.

The screenshot displays the Magento Configuration interface. On the left, a sidebar menu lists various configuration areas: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, SALES, SERVICES, ADVANCED, Admin, System, and Developer. The 'ADVANCED' section is currently selected. The main content area is titled 'Configuration' and features a 'Save Config' button in the top right corner. A list of configuration options is shown, each with a dropdown menu. The 'Ecom_Productzoom' option is highlighted, and its dropdown menu is open, showing 'Enable' as the selected value. A red arrow points from a text box to this dropdown menu.

Select "Enable" to Enable and "Disable" to Disable the Product Zoom functionality

| Configuration Option | Value |
|---------------------------|--------|
