

# Facebook Feed Widget User Guide

Before you install this module, you should make a backup of your site. The instance mode should be set to development before you begin the installation. Enter the console and navigate to run the command below.

1. `php bin/magento deploy:mode:set developer` then `goto /app/code` folder. (If you don't see the code folder, you need to create one. After that create an Elfsight/FacebookFeed folder and extract the extension files into this folder. If there are any files already in the Elfsight/FacebookFeed folder, remove them and replace with the new extracted ones).

2. Next, open the console and navigate to run the command: `php bin/magento setup:upgrade`  
Important: If you're installing the module in developer mode, you don't need to re-compile. If not, recompile and generate the browser static-content with the command below:

1. `php bin/magento setup:di:compile`

2. `php bin/magento setup:static-content:deploy`

Switch the mode back to production after you complete the setup. `magento deploy:mode:set production` & make sure all file and folder permissions are correct.

Backend settings:

PHP: 7.0

MySQL: 5.7

Options:

Option	Default Value	Description
source	—	A source list for facebook info. You can use group or page link or id.

Popud	–	Choose the elements which will be displayed in a popup window.

## Settings screenshots:

### 1. Source tab

The image shows two side-by-side screenshots. The left screenshot is from the Facebook settings 'Source' tab. It features three tabs: 'SOURCE' (selected), 'LAYOUT', and 'ADVANCED'. Below the tabs, there is a label 'FACEBOOK SOURCE ID (PAGE, GROUP)' and a text input field containing the word 'elfsight'.

The right screenshot is a preview of the 'Elfsight' Facebook page. At the top, there is a banner with the text 'Apps to make your site and business more powerful' and the Elfsight logo. Below the banner is the page header with the Elfsight profile picture, the name 'Elfsight', and '121 people like this'. There are 'Like Page' and 'Share' buttons. Below the header are tabs for 'POSTS', 'PHOTOS', 'VIDEOS', and 'EVENTS'. The 'POSTS' tab is active, showing a post from 'Elfsight' dated 'July 20 at 3:17am'. The post text reads: 'Welcome a new Elfsight product - Advanced Google Maps Builder. Set up a detailed map of your place neighborhood, and display it on your website! #Elfsight #GoogleMaps #MapsBuilder'. The post includes a red banner with the Elfsight logo and a map image.

## 2. Layout tab
