

Facebook Reviews User Guide

Before you install this module, you should make a backup of your site. The instance mode should be set to development before you begin the installation. Enter the console and navigate to run the command below.

1. `php bin/magento deploy:mode:set developer` then goto `/app/code` folder. (If you don't see the code folder, you need to create one. After that create an `Elfsight/FacebookReviews` folder and extract the extension files into this folder. If there are any files already in the `Elfsight/PaypalButton` folder, remove them and replace with the new extracted ones).

2. Next, open the console and navigate to run the command: `php bin/magento setup:upgrade`
Important: If you're installing the module in developer mode, you don't need to re-compile. If not, recompile and generate the browser static-content with the command below:

1. `php bin/magento setup:di:compile`
2. `php bin/magento setup:static-content:deploy`

Switch the mode back to production after you complete the setup. `magento deploy:mode:set production` & make sure all file and folder permissions are correct.

Backend settings:

- PHP: 7.0
- MySQL: 5.7

Options:

Name	Default value	Description
<code>userAccessToken</code>	-	Set the Facebook access token of the user whose profile you want to display in the widget.
<code>pageId</code>	-	Set the Facebook access token of the user whose profile you want to display in the widget.

headerTitleFontWeight	700	Choose the widget title font weight
reviewTextFontSize	16	Set the review text font size in pixels

Screenshots:

1. Content

The screenshot displays the Elfsight widget editor interface. On the left, a dark sidebar contains the 'CONTENT' tab, which is active. Below the tab, there is a 'Facebook connection' section with a 'Connect to Facebook' button. Further down, there is a 'LANGUAGE' section set to 'English' and a 'Filters' section. The main area on the right shows a preview of the 'Facebook Reviews' widget. The widget title is 'Facebook Reviews' with a 4.8 star rating and a note that 'Elfsight recommended by 65 people'. Below the title is a poll asking 'Would you recommend Elfsight?' with 'Yes' and 'No' buttons. The reviews section shows five individual reviews from users like 'Junior Sales', 'James McCaleb', 'Allorrina Allorrina', 'Gregg Spears', and 'Khaled Helmy', each with their profile picture, name, and review text.
