

# Instagram Widget User Guide

Before you install this module, you should make a backup of your site. The instance mode should be set to development before you begin the installation. Enter the console and navigate to run the command below.

1. `php bin/magento deploy:mode:set developer` then `goto /app/code` folder. (If you don't see the code folder, you need to create one. After that create an Elfsight/InstagramWidget folder and extract the extension files into this folder. If there are any files already in the Elfsight/InstagramWidget folder, remove them and replace with the new extracted ones).

2. Next, open the console and navigate to run the command: `php bin/magento setup:upgrade`  
Important: If you're installing the module in developer mode, you don't need to re-compile. If not, recompile and generate the browser static-content with the command below:

1. `php bin/magento setup:di:compile`

2. `php bin/magento setup:static-content:deploy`

Switch the mode back to production after you complete the setup. `magento deploy:mode:set production` & make sure all file and folder permissions are correct.

Backend settings:

PHP: 7.0

MySQL: 5.7

Options:

Option	Default Value	Description
username	—	Instagram Username.
hashtag	—	Instagram hashtag. If "data-il-username" is specified, then images will be selected by the username and filtered by the specified hashtag. Also it supports multiple hashtags separated by comma or space.
lang	en	Sets widget language (posts, followers, following and follow button labels). Supports 16 languages: en, id, de, es, fr, it, nl, pl, pt-BR, ru, sv, tr, zh-HK, ja, ko, he.
show_heading	true	If this option is specified "false", the heading panel will be hidden.
scroll	false	If option is specified "true", it's possible to show more images by scrolling down.
width	270px	Widget width (any CSS valid value: px, %, em, etc.). To make the widget responsive set it "auto".
height	350px	Widget height (any CSS valid value: px, %, em, etc.).
image_size	medium	Size of images (small, medium, large or xlarge).
bg_color	#285989	Header and button background color (any CSS valid value).
content_bg_color	#F8F8F8	Content background color (any CSS valid value).

font_color	#FFFFFF	Header and button text color (any CSS valid value).
ban	—	List of usernames to hide their photos from feed separated by comma or space. Works only on using hashtag.
cache_media_time	0	It defines how long in seconds the photos will be cached in browsers' localStorage. Set "0" to turn the cache off.

## Settings screenshots:

### 1. Source tab

The screenshot shows the 'SOURCE' tab in the settings interface. On the left, there are three input fields: 'USERNAME (WITHOUT @)' containing 'instagram', 'HASHTAG (WITHOUT #)' which is empty, and 'EXCLUDE BY USERNAME' which is also empty. On the right, a preview of an Instagram feed is shown with a grid of nine photos. The feed header includes the Instagram logo, the name 'INSTAGRAM', and statistics: 4.7k posts, 226.0m followers, and 196 following. A 'Follow' button is visible in the top right of the feed preview.

### 2. Layout tab

The screenshot shows the 'LAYOUT' tab in the settings interface. On the left, there are four settings: 'WIDTH (PX, AUTO)' set to '270', 'HEIGHT (PX)' set to '350', 'IMAGE SIZE' with radio buttons for 'Small', 'Medium', 'Large' (selected), and 'xLarge', and 'SHOW HEADING' which is a toggle switch set to 'ON'. On the right, a preview of an Instagram feed is shown with a grid of four photos. The feed header is identical to the previous screenshot, showing the Instagram logo, 'INSTAGRAM', and statistics: 4.7k posts, 226.0m followers, and 196 following, with a 'Follow' button.

### 3. Choose the colors

SOURCE LAYOUT **COLORS** OTHER

HEADER AND BUTTON

 rgb(232, 75, 75)

CONTENT BACKGROUND

 #f8f8f8

TEXT

 #ffffff

The image shows a design tool interface for creating an Instagram profile. On the left, there are three color selection sections: 'HEADER AND BUTTON' with a red color swatch and the value 'rgb(232, 75, 75)', 'CONTENT BACKGROUND' with a light gray color swatch and the value '#f8f8f8', and 'TEXT' with a white color swatch and the value '#ffffff'. On the right, a preview of the Instagram profile is shown against a checkered background. The profile header is red with the Instagram logo, the word 'INSTAGRAM', and a camera icon. Below the header, the profile statistics are displayed: '4.7k posts', '226.0m followers', and '196 following'. A red 'Follow' button is located to the right of the statistics. The main content area contains a grid of four images: a person sitting on a large white cloud, a person holding a large black and white patterned object, a landscape with a rainbow, and a hand painting a colorful wall.
