

Pricing Table Widget User Guide

Before you install this module, you should make a backup of your site. The instance mode should be set to development before you begin the installation. Enter the console and navigate to run the command below.

1. `php bin/magento deploy:mode:set developer` then goto /app/code folder. (If you don't see the code folder, you need to create one. After that create an Elfsight/PricingTable folder and extract the extension files into this folder. If there are any files already in the Elfsight/PricingTable folder, remove them and replace with the new extracted ones).

2. Next, open the console and navigate to run the command: `php bin/magento setup:upgrade`
Important: If you're installing the module in developer mode, you don't need to re-compile. If not, recompile and generate the browser static-content with the command below:

1. `php bin/magento setup:di:compile`

2. `php bin/magento setup:static-content:deploy`

Switch the mode back to production after you complete the setup. `magento deploy:mode:set production` & make sure all file and folder permissions are correct.

Backend settings:

PHP: 7.0

MySQL: 5.7

Options:

Option	Default Value	Description
Layout	columns	Select one of the three predefined layouts. Columns features separate columns. Grid groups the columns together in a single block. Table displays a table structure complete with a table head.
Skin	Skin 1	Skin defines the column elements to be colored in main color for each column. It's the fastest way to color the columns. Also there are color options available for each element to create a unique coloring.
Main skin color	rgb(255, 138, 24)	Set main skin color to color elements according to the selected skin.
Round off color corners	on	Turn on this option to make column edges rounded.

Columns border	on	Turn on this option to display column border.
Content	-	Add the content to be displayed in each element of a column.
Elements	-	Arrange the elements to be displayed for each columns, and their order.

Settings screenshots:

1. Style tab

The screenshot shows the 'Style' tab settings on the left and a dashboard preview on the right.

Style Tab Settings (Left):

- LAYOUT:** Columns
- SKIN:** Skin 1
- MAIN SKIN COLOR:** `rgb(255, 138, 24)`
- ROUND OFF COLUMN CORNERS:** ON
- COLUMNS BORDER:** ON

Dashboard Preview (Right):

The dashboard features three plans: Lite Plan, Pro Plan, and Enterprise Plan. Each plan card includes a brief description, a list of features, and a price.
